

CTSO Club

Senior Project
By Gianna Schmidt

Skills USA

About the Organization

Skills USA is a career technical organization. That helps students achieve real life work ethic through competitions and conventions. Allowing for the students partaking to become eligible for certain scholarships, job opportunities, and prizes!

Skills USA is the #1 workforce development organization for students!

The Process

Getting Set Up

Steps 1-5 are already completed.

Steps 6-8 need to do.

Due to our school already being registered to Skills USA we would only need to do steps 6-8:

#6: Electing and Training Officers

#7: Recruiting members

#8: Holding Chapter meetings

Requirements

The fee is \$20 per member, covering \$8 for international dues and \$12 for state dues. However, through fundraising and since the group is just starting, we aim to raise enough money to cover the first 10 members and ensure their spots.

SCRMP: Student Club Risk Management Plan

Purpose or Goal

To enhance student learning through contextual instruction, leadership and personal development, applied learning and real world application.

Prior knowledge

There will be a requirement of fundamental knowledge of welding. Including welding terminology, weld design, welding safety, electrical theory, the weldability of metals, and welding quality control. Students will be provided a short survey proving they understand the rudimentary information. Students will be required to provide a clean weld for the CTSO appointed sponsor. This information will be kept in member profiles alphabetically ordered and confidential.

Responsibilities

The responsibilities of members include to follow instruction, partake in holding meetings, elect club members for positions, enhancing skills, complete parent consent forms.

Faculty Sponsor

The responsibilities of the faculty appointed sponsor includes communication with school staff, supplying material, supervision of club members, and mentorship of club members.

SCRMP: Student Club Risk Management Plan

Sponsor Requirements

Our staff sponsor is a certified welder with extensive experience in industrial maintenance, possessing a deep understanding of welding techniques, equipment, and safety protocols. With years of hands-on expertise in the workforce, he brings a wealth of practical knowledge to the classroom, combining technical proficiency with real-world problem-solving skills. This experience not only enhances his ability to mentor students but also allows him to provide valuable insights into industry standards, best practices, and the evolving demands of the trades.

Safety Rules

Rules such as wearing proper PPE, maintaining a clean workspace, and adhering to fundamental safety expectations are mandatory for all members to fully participate in club activities. Any member who refuses to follow these safety procedures will be excluded from participating in club activities until they acknowledge and agree to comply with our safety standards. This ensures the well-being of all participants and upholds a safe and productive learning environment.

Social Media

How do you reach teens? Social Media!

- When our club develops we will implement a social media account so that we are on level ground with students.
- We would elect a member of the club to run our social media standpoint, they would gain experience in social networking as well as web design and promotion skills. They would be in charge of recording, photographing, and posting the activities our club partakes in.

This connection allows for our students of PRLHS

- to really see what our CTSO club offers, empowering them to join.

Student Contract

Students will be provided with a club contract outlining the responsibilities of club members. This contract will clearly define expectations, including participation in events, maintaining a professional attitude, and adhering to the club's standards of conduct. By signing this contract, students commit to upholding the principles of the club, ensuring that all members are dedicated and accountable to the group's goals.

Thank You For Your Time!
