To Whom It May Concern:

I am writing this letter to nominate Elizabeth Weaver for the "I Love Teaching Award." Mrs. Weaver is an amazing teacher! She is a First Grade Teacher here at Farr West Elementary. Mrs. Weaver has taught for over 26 years. It has been my pleasure to work with Mrs. Weaver.

Mrs. Weaver is an excellent teacher! Every year she is able to get the most out of her students and reach their full potential. Almost every year, all of her students are proficient in Language Arts. I asked her "what do you do to help get your students to be proficient"? She humbly stated "I don't think I do anything out of the ordinary". That is just it. She does! She is strategic in how she teaches her students with fidelity phonics and phonemic awareness. She is driven to make sure all her students succeed.

Mrs. Weaver has been wonderful in sharing her knowledge with our staff. She has put together professional development for our staff hosting after school training. This year she has invited teachers to come watch her teach Language Arts. Our next step is to have her come observe and team teach with our teachers. It has been amazing to see the growth in our teachers as Mrs. Weaver has shared her expertise with them.

Mrs. Weaver is also a member of our leadership team. She has done an amazing job this year. She is leading one of our action teams and it has been inspiring to watch her in action as she leads her peers to help make changes to improve our school. They have made some amazing goals and put into place an action plan to reach the goals. I am confident we will get there with her leadership.

Mrs. Weaver is a team player and is willing to do whatever is asked of her. We are very grateful that Mrs. Weaver is part of the Farr West team. She

is a master teacher and outstanding person. Mrs. Weaver is very deserving of this award and any other honors that may come her way.

Sincerely,

Kirt Swalberg
