Wildfire	Bard, Breena	<p>Julianna loved her life in rural Oregon. She loved taking care of her farm animals and being part of her local 4H club. But then the unthinkable happened...a wildfire destroyed her family's home. In the aftermath, her family relocated to Portland, Oregon, where Julianna hopes to put everything behind her. Believing the fire to be the result of kids playing with fireworks, she certainly isn't interested when her parents and younger sister start getting involved in the growing climate change protests. All she wants to do is move on, but that becomes near impossible when Carson, an old friend from her hometown who may have had a hand in starting the wildfire, is suddenly back in her life. Julianna can't seem to catch a break, but when two new friends invite her to join their school's conservation club, she learns that maybe she can turn her anger into something powerful. Rover and Speck: Splash Down!	Roth, Jonathan	<p>Everyone's favorite space rovers take on a dangerous rescue operation - inside the belly of the Beast! - in this hilarious title in the early graphic novel series.</p> <p>Interplanetary space explorers Rover and Speck have set out on a dangerous mission deep into the mysterious unknown: a visit to Unexplored Planet K2-18b. Though all seems calm to Rover when they first splash down on the watery surface, they soon find themselves in the mouth of a gigantic blubber beast! With a little ingenuity (by Rover) and some furious paddling (by Speck) they manage to escape unharmed. But when the pair meet two local spiky-spikes whose brother was swallowed by the Beast, Rover knows the brother's only hope is for the two brave explorers to go back inside the Beast to find him. Do Rover and Speck have what it takes to rescue the spiky-spike? Or will they - gulp - get swallowed, too?</p> <p>Jonathan Roth's series about two space rovers with wildly different personalities hits all the right notes for early graphic novel fans, with loads of action and humor and the funniest space rover buddy team (okay, maybe the only one) ever written. The drama is interspersed with just enough silliness to keep readers enthralled. Brightly colored traditional comic art adds to the book's appeal. As a bonus, illustrated science fact boxes containing fun and accessible background information about marine biology, underwater creatures and other relevant science topics (and jokes!) appear throughout the story. The book ends with an engaging interactive art lesson from Rover and Speck on how to draw waves.</p>	ISBN: 1-525-30567-0 ISBN 13: 978-1-525-30567-2	TRUE	TRUE	TRUE
