Item: Diesel Program Transparent Hydraulic Trainers

Submitted by: Russell Bray

Date: 8/7/25

Recommended by: Kevin Philipps *148*

Board Meeting Date: 8/18/25

RECOMMENDATION:

It is recommended that the Kent ISD School Board approve the purchase of (13) Transparent Hydraulic Trainers from TII Technical Education Systems for the KCTC Diesel program in the amount of \$35,635.00. TII Technical Education Systems was the only company to respond to the Request for Proposal which included a bid opening this week.

BACKGROUND:

To facilitate more student learning, our Diesel program requires replacement Transparent Hydraulic Trainers. Kent ISD students will use these trainers to learn functions related to industry needs and training requirements to satisfy certifications in most cases. Capital Outlay funds will be used for this purchase.
