

Joe's plants are beginning to flower in the solarium and milkweed has begun to grow. Lisa L. has put a mushroom log in the solarium and we are waiting to see what transpires. Lisa S. has butterflies hatching in about 10 days. We have a magnetic screen door to put up in the solarium and we will let the butterflies be in the solarium until we can let them loose outdoors in May.

Lisa L. created a student video for the final YES Project (Youth Eco Solutions) The students have the opportunity to win tickets to the Bell Museum. She will also receive \$750.00 to put toward the Wolfe Ridge trip transportation and \$500 in seed fund money for the Food Forest Project from YES. The Clean Energy Resource Team rep will come to school April 11th to talk about solar and clean energy. The YES team is invited to talk about it at May 6th 3-5pm "Community solutions for a resilient future" at the Crosslake Presbyterian Church to celebrates local sustainability efforts.

Earth day is upcoming, Tuesday April 22nd. Plans are in the works for a community trash pick up.
