

# AGENDA ITEM

---

**Subject:** Review and consider (LOCAL) policy EIE: Academic Achievement, Retention, and Promotion.

**Rationale:** After we held our policy review, we found that we needed to update our retention and promotion policy which also includes how we report student achievement to our parents. Angela sent TASB some changes that needed to be made in regards to our standards based report cards and retention practices. To ensure we had a clear understanding of what needed to be included in the policy and how to address it, Angela and I had a conference call with Kathy London from TASB. She recommended many word changes and that some areas be moved into administrative regulations rather than be included in policy. The revisions now follow our practices that have been implemented over the past few years.

**Recommendation:** Approve the revision of EIE (Local) as recommended by TASB Policy Service.
