

Governing Board Agenda Item

Meeting Date: March 12, 2026

From: Mark Goligoski, Assistant Superintendent

Subject: Reduction in Square Footage

Priority: To plan for future needs in a proactive, accountable manner

Consent Action Discussion

Background:

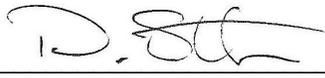

In Fiscal Year 2026, the Marana Unified School District undertook the removal and demolition of three modular buildings at Ironwood Elementary School, designated as Buildings No. 1007, 1008, and No. 1015. Buildings No. 1007 and 1008 were constructed in 1995, while Building No. 1015 was built in 2000.

The square footage of Buildings No. 1007, 1008, and 1015 is recorded at 1,876 square feet each, resulting in a total reduction of 5,628 square feet. The buildings served elementary school grades. The conclusion of their service life necessitated the removal of the structures to facilitate the construction of a new building on-site within the footprint of the demolished structures. The new building is a total of 9,360 square feet.

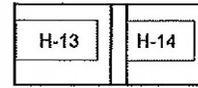

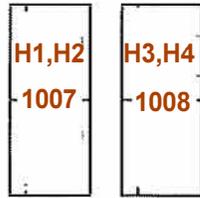

The School Facilities Division is currently seeking approval from the Marana Unified School District Governing Board for a formal reduction in square footage for the removal of three buildings, as well as an increase in square footage for the construction of the new building.

Recommended Motion:

I move that the Governing Board approve the reduction in square footage for the removal of three buildings, as well as an increase in square footage for the construction of the new building at Ironwood Elementary School.

Approved for transmittal to the Governing Board: 
Dr. Daniel Streeter, Superintendent
