Dear Mr. Gonzalez and Mr. Mijares;

There is no legal prohibition that would prevent District employees from serving on a private citizens committee organized to support the TRE. The same is true for employees who also serve as members of City council. All individuals have a right of free speech. That being said please keep in mind the following:

1. District funds/resources may not be utilized to promote the passage of the TRE.
2. Employees should not promote passage of the TRE while at work.
3. District equipment including but not limited to District email , copiers , telephones , facilities should not be utilized to promote passage of the TRE.
4. No employee should give the impression that they are speaking for the District but rather must make clear that they are acting in their individual capacity when promoting passage of the TRE.
5. School Board members may promote the passage of the TRE if they do so in their individual capacity and do not indicate that they are speaking on behalf of the District. The restriction on not utilizing government funds to promote the TRE applies to Board members and they should follow the caveats in paragraphs 1 and 3 above.
6. Employees who serve on City council should be cautioned not only to avoid the use of District resources but also to avoid the use City resources when promoting the TRE.

If you have further questions please do not hesitate to contact me.

Best regards;

Richard
