BACKGROUND INFORMATION

The District was notified early in the year that it has been placed in Intervention Stage 3 for its Career and Technical Education Program. This is a program under the state's Performance Based Monitoring Analysis System (PBMAS) of the Texas Education Agency. State monitoring for the PBMAS promotes program effectiveness and ensures that state supervision and oversight requirements for these programs are met as required by state and federal law.

ADMINISTRATION CONSIDERATION

In order to comply with state guidelines, the District was required to compile a core team to analyze data and systems in order to identify areas of concern that could be addressed in an improvement plan. The major deficit area as listed in the PBMAS report was TAKS results of special education students enrolled in the CTE programs. The plan was developed by the core team and strategies described to address the weak areas as noted by the PBMAS report.

RECOMMENDATION

The Administration recommends that the Board approve the plan as attached.
