2. Each student should make plans and take courses leading toward an educational and/or career goal to assure that entrance requirements for any post-secondary programs will be met.

3. Upon parental or student request, graduation requirements may be modified for individual students to achieve an appropriate route to student success when such modifications:

- i. are consistent with an **IEP** or **Plan for College and Career Readiness** or both;

The Plan for College and Career Readiness is essential as a planning process which guides students through their education and ensures that their education goals are achieved, culminating in graduation.

E. Course Standards

 - i. repeat the course one or more times; or
 - ii. enroll in and complete a **comparable course**.
2. A grade for an additional credit of a recurring course does not change a student's original course grade.
3. A student may not earn graduation credit for a replacement course if the student has already earned graduation credit for the original grade.
4. Only courses taken from a Utah public education institution are eligible for course grade forgiveness.
5. Concurrent Enrollment courses are college courses and high school students may not repeat a college course through CE. The course can only be repeated after applying to an institution and paying tuition. If a student receives a "W" grade on a college transcript, which is neither earned credit nor a failing grade, the student may request approval to re-enroll in the CE class. Such requests are subject to institution and LEA approval.
6. ~~Rules governing Athletic scholarships, Regent's scholarships, State scholarships,~~ and other private scholarships are not governed by Weber School District. Students should work with their counselor to determine any possible impact of retaking a course or a comparable course for a course grade forgiveness.

B. Comparable Courses

1. Comparable courses must fill the same graduation course requirements as the original course. ~~The course must be similar in standards, workload, and rigor. but need not be taught in the same format or for the same number of hours.~~
2. School-based paper packets and other credit recovery options cannot be used to improve a course grade.
3. The principal of the school, in consultation with the District Director of Curriculum, shall determine if a course is comparable based on standards, commensurate

workload, comparable rigor, and if competency in the subject matter can be demonstrated.

C. Procedure

1. A student seeking to replace a course grade with one from a comparable course must, prior to repeating the course or enrolling in a comparable course, first complete and submit the Course Grade Forgiveness/Replacement Form & Contract to the student's counselor.
 - i. If a student is repeating the same course, the counselor will sign the form and forward it to the school principal for signature.
 - ii. If a student requests enrollment in a different but comparable course;
 - a. The counselor will review the form and forward it to the principal, who, in consultation with the Director of Curriculum, will determine if the course is comparable and approved for grade replacement.
 - b. The principal will return the form to the counselor with the principal's decision.
 - c. The counselor will communicate the decision to the student, and if approved, enroll the student in the approved course.
2. Upon completion of the comparable course:
 - i. the student will provide his/her counselor all necessary documentation required to add a course to or improve a grade on the student's current transcript within thirty days of completing the course.
 - ii. The counselor will submit the information to the principal, who will then approve the adjustment of the student's transcript and return the form to the counselor.
 - iii. If approved, the registrar will adjust the transcript as follows:
 - a. The transcript will be adjusted to reflect the student's highest grade and exclude the lower grade, as necessary, and adjust the student's grade point average accordingly.
 - b. If a student retakes a "comparable course" that has a different course title or course number ~~but counts for the same graduation credit~~, the comparable course, title and/or course number will be added to the transcript in the reporting period in which the course was taken, and the school and entity from which the course was taken.
 - c. The transcript shall exclude from the student's permanent record the course or comparable course that is not the highest grade.
 - iv. The student's transcript may not indicate the course or comparable course for which the student did not receive the highest grade on the student's record.
