I am requesting to attend the Fly Solo Camp in Colorado for professional development December 9th-14th. The conference will be paid for out of the licensed Professional Development fund.

Provide history/background information on your proposal.

I will be getting certified in a "fly solo" strength & conditioning training, geared at implementing, designing and delivering safe instruction in the areas of weight lifting and conditioning. I will also be visiting a district that is home to the national high school strength & conditioning coordinator. I am reviewing a national curriculum that will be coming out to aid school districts in having safe and guided instruction. They are also adding writing and nutrition components to the subject area.

List the advantages of your proposal:

I will be certified to implement and coordinate the new NSCA curriculum when it comes out. I am able and willing to help secondary Physical education teachers in the district with the areas of strength & conditioning as this is not addressed in most college programs. This will minimize liability for negligence and injury in strength & conditioning classes. It will also allow for consistency of class preparation among schools in the district.
