PROGRAMS FOR THE GIFTED **ACADEMICALLY TALENTED**

~~The Board of Education shall encourage the staff to seek out those organizational arrangements, teaching methods and other instructional provisions for providing the appropriate learning and development of all academically talented and otherwise gifted students. To this end, pilot programs may be established, and studies and research conducted to ascertain appropriate curricular and instructional means for accomplishing the above objective.~~

The School District will provide academically talented students access to learning opportunities both in general education classrooms and in magnet programs, to meet their needs. These programs and services will be coordinated by the directors of elementary and secondary education with the support of the Academic Services Department.

Staff may conduct studies and research to ascertain appropriate curricular and instructional opportunities and programming for academically talented students.
