

## Port Orford-Langlois SD 2CJ 25-27 Integrated Programs Application

### Needs Assessment Summary

**Please offer a description of the needs assessment process you engaged in and the summary of results of that needs assessment. Please name the trends noticed through the state and local data review and indicate which data sources were used, including CTE-related information. Explain how the needs assessment and state and local data has informed specific decisions for this plan and budget. (500 words or less)**

The POLSD assessed its needs around Integrated Guidance in several ways including review of student state assessment data, review of key indicators in our LPGT data, conducting belonging/connection/engagement surveys with our students, parents, staff and community, and holding open forums to gather in person input with time for discussion. From our community engagement activities and the assessment of need through the avenues listed above, we have determined that staying the course with our initial Integrated Guidance plans is warranted. The areas of focus chosen in the first round of IG are still areas in need of focus for our district. The measures implemented through these funds appears to be making a difference, but more time for implementation is needed, in order to determine their true level of impact.

A continued focus on providing strong mental health support services, attendance services and incentives, academic support for dual credit and CTE opportunities, and measures that help ensure ALL students in the District have access to well-rounded academic programs including pre-Kindergarten opportunities.

***Additional requirement if applying with a sponsored charter:* Please include a brief description of your charter school(s) needs assessment process and how data has informed specific decisions for their plan(s) and budget(s). (Additional 250 words or less)**

### Equity Advanced (250 words or less per question)

**1. Explain how you incorporated your equity lens or tool into your planning and budgeting process. Outline key activities/strategies from your outcome/strategies Smartsheet and identify specific activities to support prioritized focal student groups.**

At each engagement activity, and embedded in each survey were questions regarding membership within a focal group, and the effectiveness of programs provided for them. Specific activities that are supporting our focal group students include attendance incentives and support, having all programs and courses available and accessible for ALL students, as well as a variety of opportunities to access mental health and social-emotional supports.

**2. What professional development or training is planned throughout the biennium for teachers, staff, and administrators to address the cultural, social, emotional, and/or academic needs of students, including those of focal students?**

Staff take annual surveys to inform PD need and these elements are embedded in all district PD activities. Focused literacy and SEL PD address cultural, social and emotional needs of students who are struggling academically. PLCs are designed to look at the "whole" child to determine need for students who could benefit from intervention with barriers and focal group status accounted for in the discussion.

It plays into our strengths of being a small and responsive district who can individualize instruction to meet each and every student's unique, individual needs. It plays into our strength of having a caring staff who truly look out for the needs of our students, and help remove barriers to their learning when necessary.

The plan does address CTE programs in terms of financial support from the grant, as well as working to implement more programs, including Business.

This plan also addresses continued focus on our LPGT's as there are options for providing increased dual credit opportunities, more CTE programs and a strong academic foundation.
