MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of Ector County Independent School District, discuss and analyze the District's financial performance for the fiscal year ended June 30, 2021. Please read it in conjunction with the independent auditors' report beginning on page 1, and the District's Basic Financial Statements which begin on page 13.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 13 through 16). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 17) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the services. The remaining statements and fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (starting on page 28) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by the Texas Education Agency (TEA). The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 6. Its primary purpose is to show whether the District is more financially sound as a result of the year's activities. The Statement of Net Position includes all the District's assets, deferred outflows, liabilities, and deferred inflows as of the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2021

These two statements report the District's net position and changes in them. The District's net position (the difference between assets and deferred outflows and liabilities and deferred inflows) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, consideration should be given to nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, the District reports two kinds of activity:

Governmental Activities-All of the District's basic services are reported here, including instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Component units-The District includes a separate legal entity in its report – ECISD Education Foundation. Although legally separate, this "component unit" is important because the District is financially accountable for them.

Expense activity is required to be recorded by districts who are participants in cost-sharing pension and OPEB benefit plans with a special funding situation where non-employer contributing entities (NECE) also participate in contributions to the plans. TRS-retirement and TRS-care benefit plans are both cost-sharing plans with special funding situations. Therefore, on-behalf expense activity of the NECE must be recorded at the government-wide level of reporting on the Statement of Activities in accordance with GASB 68 and 75.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 17 and provide detailed information about the most significant funds-not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the Every Student Succeeds Act and the IDEA laws from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds-governmental and proprietary-use different accounting approaches.

Governmental funds-Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

Proprietary funds-The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. The internal service funds report activities that provide supplies and services for the District's other programs and activities-such as the District's self-insurance programs.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by the student activities. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position on page 26 and a Statement of Changes in Fiduciary Fund Net Position on page 27. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental activities.

Net position of the District's governmental activities increased approximately 94% from \$53,451,950 to \$103,536,986. Significant changes in net position from the prior year are explained as follows:

Total assets increased primarily because of an increase in investments and state funding receivables. The increase in investments was primarily due to increases in delinquent property tax revenues and state aid revenues. Net capital assets decreased primarily because of current year depreciation.

Deferred outflows, net pension liability, net other post-employment liability, and deferred inflows changed due to assignment of pension liability and other post-employment benefits liability from the Teacher Retirement System.

Other current liabilities increased due to state overpayment to the general fund. Long-term liabilities decreased as a result of refunding bond series 2020-A and 2020-B in fiscal year 2021.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2021

The District's total revenues increased by 13% – approximately \$48.7 million from prior year revenues. Significant changes in revenue from the prior year are explained as follows:

Program revenues increased approximately \$36 million, due to a net increase in operating grants and contributions, primarily as a result of ESSER II funding

Property tax revenue decreased approximately \$3.8 million due to a 1.93% decrease in taxable property value from prior year.

State Aid – Formula Grants and Grants and contributions not restricted decreased by a net of \$5.2 million due to reduced general funds.

Investment earnings and miscellaneous local revenue increased by a net of approximately \$21.6 million primarily due to recognition of insurance recovery revenue, lower interest rates and increased federal revenues accounted for in the general fund due to COVID-19.

The District's total expenses increased by 8% – approximately \$28.8 million from prior year expenses. The increase is mainly attributed to increases in compensation and continued efforts to address areas affected by COVID-19.

Significant changes in the various function expenses from the prior year are as follows:

- Instruction, curriculum and media services expenses increased during 2020-2021 approximately \$10.4 million.
- Instructional and school leadership expenses increased approximately \$1.5 million.
- Student support services expense increased approximately \$1.2 million.
- School nutrition program expenses increased approximately \$185,000.
- Co-curricular activities expenses decreased by approximately \$1,000.
- General administration expenses increased by approximately \$900,000.
- Facilities maintenance, security and data processing expenses increased approximately \$18.6 million. These areas were challenged with keeping our facilities clean as we battled COVID-19 and to provide technology for remote learning.
- Community services expense increased approximately \$85,000.
- Debt service expenses decreased by approximately \$4.2 million due to refunding and payment of debt obligations.
- Other intergovernmental charges increased approximately \$170,000 as a result of an increase in the tax appraisal fees.

In an effort to provide a better understanding of the impact the District has experienced as a result of implementing the reporting requirements of GASB 68 for the District's portion of the State's proportion of pension expense and GASB 75 for the District's portion of the State's proportion of other post-employment benefits, we have incorporated adjustments in net position (Table III). More detailed information about the District's benefits plans is presented in Notes J and K to the financial statements.

The District's Funds

As the District completed the year, its governmental funds (as presented in Exhibit C-1 on pages 17-18) reported a combined fund balance of approximately \$157.6 million, which is above last year's total of approximately \$112.5 million. The primary reason for the increase is due to additional state funding as a result of House Bill 3 and due to the shutdown of some operations (transportation, student activities, substitutes).

Over the course of the year, the District recommended and the Board of Trustees approved revisions of the District's general fund budget for various reasons. Exhibit G-1 provides the variance between budget and actual amounts for the 2021 year.

The following are summaries of significant budget amendments made to estimated revenues and appropriations:

	Estimated Revenues
Beginning Estimated Revenues	\$ 307,129,000
Estimated increase for Foundation School Fund	17,513,528
Final Amended Estimated Revenues	\$ 324,642,528

Capital Asset and Debt Administration

Capital Assets

At the end of 2021, the District had approximately \$301 million invested in a broad range of capital assets, (net of accumulated depreciation and amortization) including capital leases, facilities and equipment for instruction, transportation, athletics, administration, maintenance, and computer technology. This amount represents a net decrease of approximately \$8 million, or 2.6% below last year.

This year's major additions included:	<u>2020-2021 Capital Additions</u>
Non-Bond Projects:	
PHS Baseball Facility	396,499

Debt Administration

At year-end, the District had approximately \$161 million in bonds outstanding versus approximately \$174 million last year for a decrease of \$9.6 million. The decrease resulted primarily from bond principal payments.

Based on information provided by the Teacher Retirement System of Texas (TRS), the District recognized its proportionate share of TRS's net other post-employment benefits liability of \$95,940,818.

Based on information provided by the Teacher Retirement System of Texas (TRS), the District recognized its proportionate share of TRS's net pension liability of \$81,703,061.

Other obligations include accrued worker's compensation and sick leave. More detailed information about the District's long-term liabilities is presented in Notes G, I, J, K, L, M, and N to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The District's elected and appointed officials considered many factors when preparing the fiscal year 2022 budget: (1) the need to staff and operate campuses; (2) the anticipated change of student population within the campuses.

These factors were considered when adopting the General Fund budget for fiscal year 2022. Estimated revenues in the General Fund are \$314.5 million, and estimated appropriations and other uses total \$314.5 million. Budgeted appropriations have been increased by approximately \$7.4 million from the 2021 budget.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET POSITION
 JUNE 30, 2021

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 157,563,282
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.	22,687,047
Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$530,940,091 and the accumulated depreciation was (\$225,708,344). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The beginning balance of the deferred charge for refunding of \$3,772,867 and the beginning balance of long-term debt of (\$178,956,377) will decrease net position. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.	130,048,237
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2021 capital outlays of \$6,089,010, the debt principal payments of \$11,350,000, and the payoff of the capital lease liability of \$2,585,409 and to expense it's short term capital lease payable of \$70,237 is to increase net position.	20,094,656
Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. At the beginning of the year, the net position related to TRS was a Deferred Outflow Outflow in the amount of \$32,455,154, a Deferred Inflow Resource in the amount of (\$19,620,085), and a net pension liability in the amount of (\$81,703,061).	(68,867,992)
The District participates in the TRS-Care plan for retirees through TRS. The District's share of the TRS plan resulted in a net OPEB liability of (\$95,940,818), a Deferred Outflow Resource of \$16,266,836, and a Deferred Inflow Resource of (\$74,762,626).	(154,436,608)
The issuance of long-term debt is not due and payable within the current period and, therefore, is not reported in the governmental funds balance sheet. Also, governmental funds report the effect of premiums, discounts, and deferred gains/loss on refunding when debt is issued whereas these amounts are deferred and amortized in the statement of activities. The District issued refunding bond series 2020A and 2020B during 2021. The net effect of the refunding was (\$1,140,840), net bond premium of \$6,339,705 and CAB accretion of (\$15,229).	5,183,636
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing the uncollected portion of the current year tax levy as unearned revenue (\$184,310), sales of assets (\$71,447), current year change in sick leave payable (\$111,665), current year interest payable (\$2,076,278), reversing prior year unearned revenue \$7,017,212, and current year depreciation (\$13,308,784). The net effect of these reclassifications and recognitions is to decrease net position.	(8,735,272)

 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2021

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$	45,104,550
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to decrease net position.		(246,180)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2021 capital outlays of \$6,089,010, debt principal payments of \$11,350,000, and the capital lease liability payoff of \$2,585,409 and to expense it's short term capital lease of \$70,237 is to increase net position.		20,094,656
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.		(13,308,784)
The issuance of long-term debt is not due and payable within the current period and, therefore, is not reported in the governmental funds balance sheet. Also, governmental funds report the effect of premiums, discounts, and deferred gains/loss on refunding when debt is issued whereas these amounts are deferred and amortized in the statement of activities. The District issued refunding bond series 2020A and 2020B during 2021. The net effect of the refunding was (\$1,140,840), net bond premium of \$6,339,705 and CAB accretion of (\$15,229).		5,183,636
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing the uncollected portion of the current year tax levy as unearned revenue (\$184,310), sales of assets (\$71,447), current year change in sick leave payable (\$111,665), and recognizing the change in interest payable of (\$48,622). The net effect of these reclassifications and recognitions is to decrease net position.		(416,044)
The net effect of current year changes to net pension liability due to GASB 68 is (\$12,118,261).		(12,118,261)
The net effect of current year changes to net OPEB liability due to GASB 75 is \$3,574,840.		3,574,840
Change in Net Position of Governmental Activities	\$	47,868,413

NOTES TO FINANCIAL STATEMENTS

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Ector County Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in **GASB Statement on Auditing Standards No. 76**, and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resource measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

The District applies Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. GASB Statement No. 79 establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The District's investments are accounted for using the cost amortization method.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." The District has component units, which are discretely presented in a separate column in a supporting schedule to the government-wide financial statements. The ECISD Education Foundation is presented separately in one column of Exhibit A-1 and Exhibit B-1 to emphasize that they are legally separate from the District. If you have questions about this report or need additional financial information, contact the District's business office, at Ector County Independent School District, 802 N. Sam Houston, Odessa, Texas.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District and its component units nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due froms on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column in Exhibit C-1 and Exhibit C-3.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are nonoperating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses). The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 90 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 90 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. If balances have not been expended by the end of the project period, determination is made to record as unearned revenue, fund balance, or return the funds if the grantors stipulate that the District must refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The net position is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. **The General Fund** – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **The Elementary and Secondary School Emergency Relief Fund II (ESSER II) of the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act** – This special revenue fund is used to account for federal stimulus ESSER II funds granted to LEAs through the CRRSA Act to support LEAs' ability to operate, instruct its students, address learning loss, prepare schools for reopening, test, repair, and upgrade projects to improve air quality in school buildings during the coronavirus pandemic.
3. **The Insurance Recovery Fund** – This special revenue fund is used to account for insurance recovery proceeds for the repair or replacement of the insured property for assets as a result of insurance claims.
4. **Debt Service Funds** – The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Additionally, the District reports the following fund types:

Governmental Funds:

5. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a special revenue fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

6. **Internal Service Funds** – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's internal service funds are the Medical Trust Fund, the Worker's Compensation Fund and the Housing Fund.

Fiduciary Funds:

7. **Custodial Funds** – The District accounts for resources held for others in a custodial capacity in custodial funds. The Custodial Fund consists of Student Activity Funds.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

E. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. The District reports inventories of supplies at weighted average cost. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the Texas Department of Agriculture. Although commodities are received at no cost, their fair value is supplied by the Texas Department of Agriculture and recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.
3. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond payable are reported net of applicable premiums and/or discounts, which are deferred and amortized over the life of the bonds using the effective interest method. Beginning with the Series 2020A and 2020B, the District has begun utilizing the straight-line amortization method.

4. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is a liability for unpaid accumulated sick leave based upon employees who meet the criteria established in the compensation and benefits local policy. All vacation pay is accrued when incurred in the government-wide and fund financial statements.
5. Capital assets, which include land, buildings, software, furniture and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and materially complete.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 YEAR ENDED JUNE 30, 2021

Buildings, equipment, vehicles, and software of the District and the component units are depreciated and amortized using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	40
Equipment	5 - 20
Vehicles	5 - 10
Software	5

6. Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
7. Restricted net position represents restrictions that are externally imposed or restrictions imposed by law through constitutional provisions or enabling legislation.
8. The District has self-insured health and worker's compensation plans which are accounted for as proprietary funds. Claims incurred but not reported (IBNR) are accrued if it is probable that a claim will be asserted and the loss can be reasonably estimated. The accrued liabilities for IBNR in the workers' compensation fund are actuarially estimated by an independent consulting and actuary company. The accrued liabilities for IBNR in the medical trust fund are based on industry standards applied by underwriters when evaluating a plan.
9. In the fund financial statements, fund balance shall mean the gross difference between governmental fund assets and liabilities reflected on the balance sheet. Governmental fund assets are those of the General Fund, Special Revenue Funds, Debt Service Funds and Capital Project Funds.

The fund balance of the General Fund, one of the governmental fund types, is of primary significance because the General Fund is the primary fund, which finances most functions in the District.

The order of spending and availability of the fund balance shall be to reduce funds from the listed areas in the following order: restricted, committed, assigned, and then unassigned funds. Negative amounts shall not be reported for restricted, committed, or assigned funds.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

The five classifications of fund balance of the governmental types are as follows:

Non-spendable fund balance shall mean that portion of the gross fund balance that is not expendable or is legally earmarked for a specific use. Examples of non-spendable fund balance reserves for which fund balance shall not be available for financing general operating expenditures include:

1. Inventories
2. Prepaid items
3. Long-term receivables

Restricted fund balance shall include amounts constrained to a specific purpose by the provider, such as a grantor. Examples of restricted fund balances include:

1. Child Nutrition Program
2. Technology Program
3. Construction Programs under a state funded program (i.e. IFA, EDA, PFC, financed bonds)
4. Resources from other granting agencies
5. Retirement of Long-Term Debt
6. Scholarships

Committed fund balance shall mean that portion of the fund balance that is constrained to a specific purpose by the Board of Trustees. Examples of committed fund balance include:

1. Potential litigation, claims, and judgments
2. Campus activity funds
3. Construction
4. Capital Expenditures for Equipment
5. Self-Insurance

Assigned fund balance shall mean that portion of the fund balance that is spendable or available for appropriation but has been tentatively earmarked for some specific purpose. When it is appropriate for fund balance to be assigned, the Board delegates the responsibility to assign funds to the Superintendent or designee. In current practice, such plans or intent may change and may never be budgeted, or may result in expenditures in future periods of time. Examples of assigned fund balances which the District may have tentative plans for expenditures in future periods include:

1. Capital replacement (expenditures for equipment, furniture, software)
2. Building construction, repair and renovation
3. Insurance deductibles
4. Program startup costs
5. Debt service reduction
6. Other legal uses

Unassigned fund balance shall include amounts available for any legal purpose. This portion of the total fund balance in the General Fund is available to finance operating expenditures. Unassigned fund balance shall mean the difference between the total fund balance and the total of the non-spendable fund balance, restricted fund balance, committed fund balance and assigned fund balance.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 YEAR ENDED JUNE 30, 2021

10. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
11. The District's investments are reported at cost which approximates fair value.
12. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.
13. In addition to liabilities, the statement of financial position (Exhibit C-1) will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Uncollected property taxes which are assumed collectible are reported in this category under the modified accrual basis of accounting. They are reported as unearned revenue on the government wide statement of net position in Exhibit A-1.
14. The Data Control Codes refer to the account code structure prescribed by Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. TEA requires school districts to display these codes in the financial statements filed with TEA in order to ensure accuracy in building a State-wide data base for policy development and funding plans.
15. The District utilizes an encumbrance accounting system which is a method of ascertaining the availability of funds and then reserving funds to cover outstanding obligations. During the budgetary period, the District can determine the remaining amount of the new commitments that can be signed by comparing the amount of appropriations to the sum of expenditures recognized and encumbrances outstanding.

Accounts payable balances at June 30, 2021, consisted of the following amounts:

Fund Type	Amount
General Fund	3,697,209
Insurance Recovery Fund	1,183,707
Internal Service Fund	829,334
Special Revenue Fund	697,143
Custodial Fund	6,899
Total	\$ 6,414,292

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the School Nutrition Fund, which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports are in Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to June 20th the District prepares a budget for the next succeeding fiscal year beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to July 1st, the budget is legally enacted through passage of a resolution by the Board.
4. The adopted budget must be filed with the Texas Education Agency according to the Public Education Information Management System ("PEIMS") data standards, as of the last Friday in October (snapshot).

Once a budget is approved and adopted, any commitment that exceeds the available balance of the appropriation on the function level requires a budget amendment before the commitment is made. As dictated by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. All budget amendments enacted at the function level during the fiscal year were legally approved.

Expenditures may not legally exceed budgeted appropriations at the function level within an individual fund for General Funds, Debt Service Funds, and the School Nutrition Fund, except when a budget amendment is approved by the Board. The budget was amended during the year for certain supplementary appropriations.

For Special Revenue Funds a budget amendment is required by the TEA when cumulative transfers among direct cost categories exceed or are expected to exceed twenty-five percent of the total current approved budget. The District may transfer resources among categories without submitting an amendment to TEA as long as the total amount of resources transferred is twenty-five percent or less of the total current approved budget. The total expenditures per funding source per fiscal year cannot exceed the total amount approved.

B. VARIANCES FROM FINAL ADOPTED BUDGET

Budgets are required to be adopted for the General Fund, the School Nutrition Fund, and the Debt Service Fund. Original and Final Budgets are compared with the actual amounts at fiscal year-end. Variances with the final budget are noted.

1. The General Fund is analyzed in Exhibit G-1. All variances were positive except local revenues were less than anticipated as a result of lower delinquent tax revenues and the reclassification of the Campus Activity Fund to Fund 461 from Fund 199.

Additionally, state revenues were less than budgeted. The state of Texas provides funding based on attendance. Due to COVID-19, attendance rates were much lower than expected. The State did not provide the General Funds as anticipated, however, they held districts harmless by allowing the use

of federal ESSER II allocations accounted for in Fund 281. This detailed information was not provided to the District until after final General Fund budget amendments were approved.

2. The School Nutrition Fund is analyzed in Exhibit J-2. All variances were positive. Note that many of the School Nutrition funds were accounted for in Fund 242 due to a switch of funding source due to COVID-19.
3. The Debt Service Fund is analyzed in Exhibit J-3. All variances were positive except state hold harmless revenues were less than anticipated due to an unexpected state adjustment. Additionally, a bond refunding caused a recording to the other financing uses rather than a bond issuance costs. Net variances and change in fund balance is positive.

C. DEFICIT FUND EQUITY

No deficits in fund equity occurred.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The **Texas Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas:

1. safety of principal and liquidity,
2. portfolio diversification,
3. allowable investments,
4. acceptable risk levels,
5. expected rates of return,
6. maximum allowable stated maturity of portfolio investments,
7. maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio,
8. investment staff quality and capabilities, and
9. bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in

1. obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies;
2. guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas;
3. obligations of states, agencies, counties, cities and other political subdivisions of any state having been
4. rated as to investment quality not less than an "A";
5. no load money market funds with a weighted average maturity of 90 days or less;
6. fully collateralized repurchase agreements;
7. commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated
8. less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized
9. credit agency and is fully secured by an irrevocable letter of credit;
10. secured corporate bonds rated not lower than "AA-" or the equivalent;
11. public funds investment pools; and
12. guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds
13. Investment Act in an amount equal to the bond proceeds.

The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

Additional Contractual provisions governing deposits and investments for the District are as follows:

Policies Governing Deposits and Investments

In compliance with the **Texas Public Funds Investment Act**, the District has adopted a deposit and investment policy. That policy does address the following risks:

- a. **Custodial Credit Risk – Deposits:** In the case of deposits, this is the risk that in the event of a bank failure, the government’s deposits may not be returned to it. The District’s policy regarding types of deposits allowed and collateral requirements is consistent with the requirements of the Public Funds Collateral Act, it is the policy of the District to require full collateralization of all District investments and funds on deposit with a depository bank, other than investments which are obligations of the U.S. Government and its agencies and instrumentalities. As required by Government Code 2257.022 the collateralization level will be 110% of market value of principal and accrued interest on the deposits or investments less an amount insured by the FDIC or FSLIC.

Securities pledged as collateral shall be held by an independent third party with whom the District has a current custodial agreement. The Director of Finance is responsible for entering into collateralization agreements with third party custodians in compliance with this policy. The agreements are to specify the acceptable investment securities for collateral, including provisions relating to possession of the collateral, the substitution or release of investment securities, ownership of securities, and the method of valuation of securities. Collateral shall be reviewed at least weekly to assure that the market value of the pledged securities is adequate.

The District is not exposed to custodial credit risk for its deposits as all are covered by depository insurance and collateralization by securities at 110% of the market value.

- b. **Custodial Credit Risk for Investments –** The risk that the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party in the event of the failure of the counterparty. Investments are subject to custodial credit risk only if they are evidenced by securities that exist in physical or book entry form. Thus, the District’s positions in external investment pools are not subject to custodial credit risk.
- c. **Interest-Rate Risk –** Interest-rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. To reduce exposure to changes in interest rates that could adversely affect the value of investments, the District shall use final and weighted-average maturity limits and diversification.
- d. **Other Credit Risk Exposure –** The District, in accordance with its investment policy, invests in external public fund investment pools, meeting the requirements of Government Code 2256.016 and 2256.019. These pools invest in U.S. Government agencies and repurchase agreements.
- e. **Concentration of Credit Risk –** Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The District’s policy regarding diversity is as follows:

The investment portfolio shall be diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from over concentration of assets in a specific class of investments, specific maturity, or specific issuer.

The District’s investment portfolio consists of external investment pools and balances in savings accounts collateralized at 110% of their fair value by securities held by a third-party custodian of the District’s depository bank in the name of the District.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

In this discussion and in the table below, investments are defined according to GASB 72 as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. An asset initially reported as a capital asset and later held for sale would not subsequently be reclassified as an investment. GASB 79 allows entities to report external investment pools at amortized cost for financial reporting purposes.

As of June 30, 2021, the District's had the following investments subject to the fair value measurement:

	Balance at June 30, 2021	Fair Value Measurements

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the District’s fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

G. BONDS PAYABLE AND DEBT SERVICE REQUIREMENTS

Bonded indebtedness of the District is reflected in the Statement of Net Position in Exhibit A-1. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund.

On June 20, 2012, the District issued \$4,690,000 of Unlimited Tax Refunding Bonds, Series 2012 (the "Bonds") maturing from August 15, 2012 through August 15, 2025. Interest rates vary from 2.00% to 3.00%. The Bonds were issued to advance refund a portion of the District's outstanding bonds to lower the District's debt service payments by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements.

On March 28, 2013, the District issued \$121,595,000 of Unlimited Tax School Building Bonds, Series 2013 (the "Bonds") maturing from August 15, 2013 through August 15, 2038. Interest rates vary from 3.00% through 5.00%. The Bonds were issued for the construction and renovation and equipping of high school facilities, the construction and equipping of elementary school facilities and the acquisition of any necessary school sites and new school buses, and to fund capitalized interest on, and costs of issuance related to, the bonds.

On November 22, 2016, the District issued \$49,235,000 of Unlimited Tax Refunding Bonds, Series 2016 (the "Bonds") maturing from August 15, 2017 through August 15, 2027. Interest rates vary from 2.00% to 5.00%. The Bonds were issued to advance refund a portion of the District's outstanding bonds to lower the District's debt service payments by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payment on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the District's financial statements.

On December 17, 2020, the District issued \$8,935,000 of Unlimited Tax Refunding Bonds, Series 2020-A (the "Bonds") maturing from August 15, 2021 through August 15, 2037. Interest rate is 3.00%. The Bonds were issued to advance refund \$9,700,000 of the District's outstanding bonds to lower the District's debt service principal payments by \$765,000. The proceeds of new bonds are placed in an irrevocable trust to provide for all future debt service payment on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the District's financial statements. The refunding resulted in an economic gain to the District of \$2,147,289. The refunding resulted in a deferred resource outflow of \$129,368.

On December 17, 2020, the District issued \$56,150,000 of Unlimited Tax Refunding Bonds, Series 2020-B (the "Bonds") maturing from August 15, 2021 through August 15, 2037. Interest rates vary from 1.75% to 5.00%. The Bonds were issued to advance refund \$56,150,000 of the District's outstanding bonds to lower the District's debt service payments by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payment on the old bonds. Accordingly, the trust accounts assets and liabilities for the defeased bonds are not included in the District's financial statements. The refunding resulted in an economic gain to the District of \$11,287,495. The refunding resulted in a deferred resource outflow of \$7,555,487.

I. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

Upon retirement or death of certain employees, the District pays any accrued sick leave and vacation leave in a lump sum payment to such employee or their estate based upon the following criteria:

1. Hourly position employees not working a scheduled 40-hour week are not eligible to be paid for accrued leave.
2. Sick Leave: Any employee not mentioned above who retired after completing five consecutive years or resigns after completing 20 years of service with the District shall be paid for accrued sick leave. Accrued sick leave shall be computed at one-half the daily rate at the time of retirement or resignation times the number of accrued leave days, which shall not exceed one-half the number of working days in an annual contract. In order to receive payment for unused sick leave, retirement must occur at the end of the employee's contract period, or when retirement is necessitated by a medical disability as approved by the Teacher Retirement System. Exceptions to this provision were reviewed by the Board upon recommendation of the Superintendent. No benefits shall be calculated on a salary schedule exceeding that of a regular teacher's salary schedule. Individuals who are retiring and have worked less than 85 days of the contract year shall have accrued sick leave paid based on the previous year's salary schedule.
3. Vacation Leave: Any accrued vacation leave is paid upon separation at the employee's current daily rate of pay.

J. DEFINED BENEFIT PENSION PLAN

Plan Description. Ector County Independent School District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling 1-800-223-8778.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for

member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025. Contribution Rates can be found in the TRS 2020 ACFR, Note 11, on page 82.

Contribution Rates		
	2020	2021
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	7.5%	7.5%
Employers	7.5%	7.5%

Employer 0576 - 2021 Member Contributions		\$14,787,873
Reporting Year 2020 NECE On-behalf Contributions		\$16,015,406

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (including public schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three-year period ending August 31, 2018 and were adopted in July 2018.

The active mortality rates were based on 90 percent of the RP 2014 Employee Mortality Tables for males and females. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables.

The following table discloses the assumptions that were applied to this measurement period.

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-Term Expected Rate	7.25%
Municipal Bond Rate as of August, 2020	2.33%. Source for the rate is the Fixed Income Market Data/Yield/Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in Projection Period (100 years)	2119
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the TRS actuarial valuation report dated November 14, 2019.

Discount Rate. The single discount rate used to measure the total pension liability was 7.25%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the statutorily required rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

 NOTES TO THE FINANCIAL STATEMENTS
 YEAR ENDED JUNE 30, 2021

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a liability of \$81,703,061 for its proportionate share of the TRS’s net pension liability. The District’s proportionate share of net pension liability appears in Exhibit G-2. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

ECISD’s Proportionate share of the collective net pension liability	\$ 81,703,061	
State’s proportionate share that is associated with ECISD	133,153,469	
Total	<u>\$ 214,856,530</u>	

The net pension liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2019 rolled forward to August 31, 2020. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020 the employer's proportion of the collective net pension liability was .1525507350% which was a decrease of 0.0191802371% from its proportion measure as of August 31, 2019.

Changes In Actuarial Assumptions Since the Prior Actuarial Valuation – There were no changes in assumptions since the prior measurement date.

Changes In Benefit Terms - In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. The increases immediately made the pension fund actuarially, sound and the Legislature approved funding for a 13th check. All eligible members retired as of December 31, 2018, received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever was less.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2021, the District recognized pension expense of \$11,887,764. The District also recognized an additional on-behalf revenue and expense of \$16,015,406 representing support provided by the State.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

At June 30, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources: The amounts shown below are deferred outflows and inflows of resources.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual Actuarial	\$149,183	\$2,280,116
Changes in Actuarial Assumptions	\$18,958,017	\$8,060,817
Difference between projected and actual investment earnings	\$1,654,009	\$0
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	\$5,080,334	\$9,279,152
Contributions paid to TRS subsequent to the measurement date (calculated by employer)	\$6,613,611	\$0
Total	\$32,455,154	\$19,620,085

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$6,613,611 will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

For the Year Ending June 30	Pension Expense Amount
2022	\$2,271,897
2023	\$3,103,549
2024	\$2,660,170

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. The TRS-Care program was established in 1986 by the Texas Legislature.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2020 are as follows:

<u>NET OPEB Liability</u>	<u>Amount</u>
Total OPEB Liability	\$ 40,010,833,815
Less: Plan Fiduciary Net Position	(1,996,317,932)
Net OPEB Liability	<u>\$ 38,014,515,883</u>
 Net Position as percentage of Total OPEB Liability	 4.99%

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension system. Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible Non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The General Appropriations Act passed by the 86th Legislature included funding to maintain TRS Care premiums at their current level through 2021. The 86th legislature also passed SB 1682 which requires TRS to establish a contingency reserve in the TRS-Care fund equal to 60 days of expenditures.

The premium rates for retirees are presented in the following table:

<u>TRS-Care Monthly Premium rates</u>			
		<u>Medicare</u>	<u>Non-Medicare</u>
Retiree or Surviving Spouse	\$	135	\$ 200
Retiree and Spouse		529	689
Retiree or Surviving Spouse and Children		468	408
Retiree and Family		1,020	999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers based on active employee compensation. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act which is 0.75% of each active employee's pay for fiscal year 2020.

Employer 0576 - 2021 Member Contributions		\$ 1,248,315
Reporting Year 2021 NECE On-behalf Contributions		\$ (895,182)

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

A supplemental appropriation was authorized by Senate Bill 1264 of the 86th Texas Legislature to provide \$2,208,137 for fiscal year 2020 and \$3,312,206 for fiscal year 2021, for consumer protections against medical and health care billing by certain out-of-network providers. Funding will be in fiscal year 2021.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020 to maintain premiums and benefit levels in the 2020-2021 biennium.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions: *Actuarial Assumptions can be found in the 2020 TRS ACFR, Note 9, page 75.*

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2020 TRS pension actuarial valuation that was rolled forward to August 31, 2020:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability	

The active mortality rates were based on 90% of the RP-2014 Employee Mortality tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Salary Increases	3.05% to 9.05%, including inflation
Ad hoc post-employment benefit changes	None

The initial medical trend rates were 9.00% for Medicare retirees and 7.30% for non-Medicare retirees. There was an initial prescription drug trend rate of 9.00% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 13 years.

Discount Rate. A single discount rate of 2.33% was used to measure the total OPEB liability. There was a decrease of .30% in the discount rate since the previous year. The Discount Rate can be found in the 2020 TRS CAFR on page 76. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2021, the District reported a liability of \$95,940,818 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

ECISD's Proportionate share of the collective net OPEB liability	\$ 95,940,818
State's proportionate share that is associated with ECISD	<u>128,921,462</u>
Total	<u><u>\$ 224,862,280</u></u>

The Net OPEB Liability was measured as of August 31, 2020 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 thru August 31, 2020.

At August 31, 2020 the employer's proportion of the collective Net OPEB Liability was 0.2523794293% compared to 0.2525273266% as of August 31, 2019. This is a decrease of 0.0001478973%.

Changes in Actuarial Assumptions Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 2.63 percent as of August 31, 2019 to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- The ultimate health care trend rate assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

Changes in Benefit Terms: There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2021, the District recognized negative OPEB expense of \$1,586,036. The District also recognized negative on-behalf OPEB expense and revenue of \$895,182 for support provided by the State.

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These payments are recorded as equal revenues and expenditures in the governmental fund financial statements of the District. The subsidy payments received by TRS-Care on-behalf of the District were:

L. RISK MANAGEMENT

Health Insurance

The District sponsors a self-funded plan to provide health care benefits to staff members and their dependents. Transactions related to the plan are accounted for in the Medical Trust Fund (the “Fund”), an internal service fund of the District. The District contributed \$380 per month per employee-for the period of July 2020 through June 2021. Each employee contributed \$125 per month for the period of July 2020 through June 2021. Employees, at their option, authorized payroll withholding to pay contributions for dependents. Third party administrators paid all claims from the fund. The plan was authorized by Section 21.922, Texas Education Code, and was documented by contractual agreement. The District was protected against unanticipated catastrophic individual or aggregate loss by stop-loss coverage carried by a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Stop loss coverage was in effect in 2020 for individual claims exceeding \$350,000 annually and aggregate coverage with an attachment point of \$30,746,728. These amounts were \$350,000 individual and \$30,334,131 aggregate in 2021. Estimates of claims payable and of claims incurred, but not reported at June 30, 2021, are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due.

For the fiscal year 2020-2021, no claims exceeded the \$350,000 limit plus one one-time aggregating specific of \$200,000. Changes in the balances of claims liabilities during the past year are as follows:

		Year Ended June 30, 2020		Year Ended June 30, 2021
Unpaid claims, beginning of the year	\$	1,849,491	\$	1,807,206
Incurred claims (including IBNR's)		19,683,250		25,792,128
Claim Payments		(19,725,535)		(25,338,374)
Unpaid claims, end of fiscal year	\$	1,807,206	\$	2,260,960

Worker’s Compensation

The District sponsors a self-funded Worker’s Compensation Fund. Claims exceeding \$500,000 up to the State of Texas statutory limits per occurrence are covered by a stop loss plan through the Texas Association of School Boards.

For the school year 2020-2021, no claims exceeded the \$500,000 limit. Changes in the balances of the claims liability during the past year are as follows:

		Year Ended June 30, 2020		Year Ended June 30, 2021

N. PRIOR PERIOD ADJUSTMENT

Net position-beginning in Exhibit B-1 and contributions in Exhibits G-3 and G-5 have been restated. The restatement of \$2,216,623 was necessary to correct prior year employer contributions reported as deferred outflows of resources related to TRS pension and OPEB.

During the process of analyzing funds, it was determined that the Campus Activity Funds (CAF) funds, which utilized the same activity fund system as the SAF funds, had been accounted for in the General Fund 199. This CAF are better served and accounted for in a governmental special revenue fund instead. These CAF have been reclassified to Fund 461. All such funds are district governmental funds reflected in the Balance Sheet (Exhibit C-1) and Statement of Revenues and Expenditures and Changes in Fund Balance (Exhibit C-3). The CAF beginning fund balance totaling \$933,607 is removed from Fund 199 General Fund and reflected in Fund 461 in the Other Funds total. Total Governmental Funds beginning fund balance remains unchanged.

Q. CONTINGENT LIABILITIES

The District participates in numerous federally-funded programs, on both a direct and state pass-through basis, as well as on a service-provider basis. In connection with these grants, the District is required to comply with specific terms and agreements, as well as applicable federal and state laws, and regulations. Such compliance is subject to review and audit by the grantors and their representatives, including audits under the “Single Audit” concept and compliance examinations which build upon such audits.

In the opinion of management, the District has materially complied with all requirements. However, such programs are subject to future audit or review, the possibility of disallowed expenditures exists. In the event of such disallowance of claimed expenditures, the District does not expect the resulting liability to have a material adverse effect on its combined financial statements at June 30, 2021.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not determinable presently in the opinion of the District’s counsel the resolution of these matters will not have a material adverse effect on the financial statements of the District.

R. SHARED SERVICE ARRANGEMENTS

The District is the fiscal agent for a Shared Service Arrangement (“SSA”) that provides deaf education services to member districts. In addition to the District, other member districts are noted below. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent. According to guidance provided in TEA’s Resource Guide, the District has accounted for the fiscal agent’s activities of the SSA in Special Revenue Fund 315, 340, and 435 using Model 3 in the SSA section. Expenditures of the SSA are summarized below:

T. ARBITRAGE COMPLIANCE

The District is monitoring its compliance with Federal arbitrage regulations. As of June 30, 2021, the District is in compliance with Federal regulations, and the District has no liability for arbitrage rebates.

U. TAX ABATEMENTS

In compliance with GASB Statement No. 77, the District had one Chapter 313 Agreement with Oberon Solar IA LLC for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes pursuant to the Chapter 313 of the Texas Tax Code, i.e., the Texas Economic Development Act, as set forth in Chapter 313 of the Texas Tax Code, as amended. Value limitation agreements are a part of a state program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in statute. The project under the Chapter 313 agreement must be consistent with the state's goal to "encourage large scale capital investments in this state." Chapter 313 of the Tax Code grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and data centers.

In order to qualify for the value limitation agreement, the applicant is required to meet a series of capital investment, job creation, and wage requirements specified by state law. At the time of the application's approval, the agreement must be found to meet the requirements of Texas Comptroller's Office. Only after that point is the final application brought to the district for acceptance and approval by the Board of Trustees. The application, the agreements and state reporting requirement documentation can be viewed at the Texas Comptroller's website: <https://comptroller.texas.gov/economy/local/ch313/agreement-docs.php> and the district's website at <https://www.ectorcountyisd.org/Page/5013>.

The value limitation application fee revenues, expenditures, and funds due to the district began in the 2020-2021 fiscal year and will continue for M&O tax purposes for ten years. The entire project value will remain taxable for I&S purposes for the term of the agreement. The net payment due to the district at year end is \$0. All is accounted for in special revenue Fund 477.

As of June 30, 2021, the district had one executed agreement with Oberon Solar, LLC.

V. STUDENT ACTIVITY FUNDS

The District has implemented GASB 84 effective the 2020-2021 fiscal year. The District's Student Activity Funds (SAF) meet the GASB 84 criteria requirements. Per GASB 84, a fiduciary fund must meet the criteria that:

1. assets are controlled or directed by the government;
2. assets are not derived from the government's own source revenue;
3. assets have one or more of the following characteristics:
 - a. administered through a trust for which the government is not a beneficiary;
 - b. assets are for the benefit of organizations;
 - c. assets are for the benefit of individuals and are not administered by the government.

The District has accounted for these funds as fiduciary Agency Funds in the past. These funds were shown on the Statement of Fiduciary Assets and Liabilities (Exhibit E-1) as Due to Student Groups. In implementing GASB 84, the funds are now considered fiduciary Custodial Funds and will appear on the Statement of Fiduciary Net Position (Exhibit E-1) and a new Statement of Changes in Fiduciary Fund Net Position (Exhibit E-2). The E-2 provides for additions and deductions to the funds along with net position. In the year of implementation, a prior period adjustment is shown for the balance of the funds from the prior year totaling \$1,172,630.

W. SUBSEQUENT EVENTS

The District was notified at the very end of June 2021 that the Hold Harmless amount of \$20,997,458 was to be supplanted with ESSER funds.

The District has evaluated events subsequent to June 30, 2021 through November 16, 2021, the date the financial statements were available to be issued and concluded there are no other events requiring disclosure in the notes or recognition in the financial statements.

As of September 2, 2021, the Texas Education Agency (TEA) informed local education agencies (LEAs) that it has no plans to issue missed school day waivers due to COVID-19 during the 2021-2022 school year when the LEA or its campuses are closed. Each LEA will need to plan to make up time for school closures during the school year and may need to add additional instructional days and/or minutes to their calendar to meet the 75,600 operational minute requirement.

LEAs have reported to the TEA that attendance rate declines continue to occur due to COVID-19. As a result, the TEA is exploring options to ensure school systems will not experience significant financial difficulties. Additionally, LEAs had varying daily rates of attendance during the 2020-2021 school year due to the impact of virtual learning options. Once the TEA receives this local information in a PEIMS upload this fall, it will be equipped to analyze, understand, and determine potential changes to the rules around waivers, particularly low attendance waivers. As of the date of this report, the District has not determined the impact.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED JUNE 30, 2021

A. Notes to Schedules for the TRS Pension

Changes of Benefit terms.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. The increases immediately made the pension fund actuarially sound, and the Legislature approved funding for a 13th check.

All eligible members retired as of December 31, 2018, received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever was less.

Changes of Assumptions.

There were no changes in assumptions since the prior measurement date.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefits.

There were no changes in benefit terms since the prior measurement date.

Changes in Assumptions.

The following assumptions, methods and plan changes which are specific to TRS-Care were updated from the prior year's report:

- The discount rate changed from 2.63 % as of August 31, 2019 to 2.33%, as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50% to 40%. This change lowered the Total OPEB Liability.
- The ultimate health care trend assumption was lowered from 4.50% to 4.25% as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

ECTOR COUNTY INDEPENDENT SCHOOL DISTRICT
 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
 FOR THE YEAR ENDED JUNE 30, 2021

1) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all Federal financial assistance programs of the Ector County Independent School District, Odessa, Texas (the District). The District reporting entity is defined in note I.A. of the notes to the District's general purpose financial statements. Federal financial assistance received directly from Federal agencies as well as Federal financial assistance passed through other government agencies is included in the exhibit.

2) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting that is described in note I.C. of the notes to the District's general purpose financial statements.

Indirect costs shown on the Schedule of Expenditures of Federal Awards are properly credited as revenues to the General Fund. These indirect cost revenues were determined by applying approved indirect cost rates to actual applicable expenditures of the projects. The District has elected not to use the 10% *de minimis* cost rate as covered in 200.414 Indirect (F&A) costs.

3) Relationship to General Purpose Financial Statements

The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards and federal revenues reported on Exhibit C-3 of the District's Annual Financial Report:

Total Expenditures of Federal Awards	\$ 69,401,056
School Health and Related Services (SHARS) revenue	1,971,426
E-Rate revenue	6,304,608
Other miscellaneous revenue	162,686
Federal Revenues Reported in Exhibits C-3	\$ 77,839,776
