

FOOD SERVICE  
PAYMENT FOR SCHOOL MEALS – ADMINISTRATIVE PROCEDURE

Payment for meals may be made in advance at any of the schools. The advance payment is either documented in a ledger or as a ticket issued for meals. Students may also pay for their meals daily. In the elementary schools, if students do not have money for their meals, they may charge their meal. We expect parents/guardians to pay these charges when notified. We will not deny a meal to any elementary student. The middle school and senior high school students may charge up to five times. If the charges have not been paid by these students, notices will be sent to the parents/guardians for payment. If a middle school or high school student has five charges and they have not been paid, they will only be offered a peanut butter sandwich and milk for their lunch.
