**The purpose of the financial accountability rating system is to ensure that school districts are held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. The system is designed to encourage Texas public schools to manage their financial resources better in order to provide the maximum allocation possible for direct instructional purposes. The system will also disclose the quality of local management and decision-making processes that impact the allocation of financial resources in Texas Public schools. This FIRST rating is based upon an analysis of staff and student data AND budgetary and actual financial data that was reported for the 2023-2024 school year. For 2024-2025 there are 21 indicators that determine a district's rating. A District must score at least 70 points to pass. Troup ISD received a score of 100 and its rating was an "A = Superior".*
