# **WHAT ARE THE MAIN VARIABLES THAT MAY CAUSE PROPERTY TAX INCREASES AND DECREASES?**

- 1. Changes in market values**
- 2. Changes in class rates/history**
- 3. Market value exclusion**

**(Newly adjusted Pay 2025 credit amount and value range)**

- 4. Voter approved referendums**
- 5. State adjustments**

**(i.e. Ag2School Tax Credit Program)**

- 6. New programs authorized or mandated by legislature**

**(i.e. Long-Term Facilities Maintenance [LTFM] Revenue Program)**

# CHANGES IN MARKET VALUE

The market values are final and are not a subject for the upcoming budget hearings. They were discussed at the local County Board of Review and County Board of Equalization hearings held earlier this year. The final taxable market values may reflect a reduction under the limited value law. If this property is a qualifying homestead, the final taxable market values may exclude improvements which you made to this property.

# HOMESTEAD MARKET VALUE EXCLUSION

**Commencing with taxes payable 2025, Minnesota residential homestead property taxpayers will see an adjusted homestead market value exclusion formula**

MN Statute 273.13 subd. 35 provides a homestead market exclusion. This residential market value exclusion originated as a credit and was established by the 2001 Legislature. The 2011 Legislature converted this credit to a market value exclusion. As with the previous credit, qualifying property includes homestead property classified as 1a (residential), 1b (blind/disabled), and 2a (agricultural). In the case of an agricultural homestead or resort homestead, only the market value of the house, garage and immediately surrounding one acre of land is eligible in determining the exclusion. Homesteaded manufactured homes are eligible, as are relative homesteads to the degree the owner would be eligible if they lived there (MN Stat. 272.02)

MN Stat 273.13 subd. 35 (b) **formerly stated:**  
For a homestead valued at \$76,000 or less, the exclusion is 40 percent of market value. For a homestead valued between \$76,000 and \$413,800, the exclusion is \$30,400 minus nine percent of the valuation over \$76,000. For a homestead valued at \$413,800 or more, there is no valuation exclusion. The valuation exclusion shall be rounded to the nearest whole dollar, and may not be less than zero.

MN Stat 273.13 subd. 35 (b) **now states:**  
For a homestead valued at \$95,000 or less, the exclusion is 40 percent of market value. For a homestead valued between \$95,000 and \$517,200, the exclusion is \$38,000 minus nine percent of the valuation over \$95,000. For a homestead valued at \$517,200 or more, there is no valuation exclusion. The valuation exclusion shall be rounded to the nearest whole dollar, and may not be less than zero.

**Please note market value range and credit amount both increased**
