

## **NEW BUSINESS**

### **COMMITTEE ASSIGNMENTS AND BOARD APPOINTMENTS (Action)**

---

#### **BACKGROUND**

Each year the President of the Board of Education reviews committee chairmanships, committee assignments and organization representatives with the full Board. The Board President seeks input from Board members on which committees they would like to serve. The Board President also asks Board members which committee chairmanships are most appealing to them.

In the formation of committees, the Board President serves in the following capacities:

1. To select committee memberships based upon individual Board member preference as far as it is possible to do so.
2. To balance the committees in terms of Board experience.
3. To provide a leadership role in the selection of committee chairmanships.
4. To call for the formation of adhoc committees when necessary.

The Board President accepted all input from the Board members and drafted the committee assignments which were reviewed at the previous Board meeting.
