

2025-2027 (Year Two) Local Service Plan

Our shared commitment to equity, empowerment, and collaboration in education.

About Lane Education Service District

Lane Education Service District (ESD) provides services to sixteen component districts in Lane County. Our purpose is to **SERVE** our communities!

Support - Provide comprehensive services in technology, school improvement, special education, and administrative services that support our component districts' missions to achieve equitable outcomes for all students.

Empower - Empower educators, students, and communities by offering professional development and innovative programs to enhance culturally responsive-sustaining learning experiences.

Resource - Deliver fiscally sound services that support equitable allocation for students countywide.

Vision - Cultivate a clear vision for educational excellence and equity, guiding strategic planning, and fostering a shared mission among Lane County's invested communities.

Engage - Promote engagement and collaboration among educators, families, and community partners to create a supportive educational environment that promotes justice-centered engagement for all invested communities.

Purpose of the Local Service Plan

The Local Service Plan is a foundational document for Lane ESD and our component school districts, designed to outline the range of services and programs offered to support district needs. Its primary purpose is to define the services available and clarify how resources, staffing, and funding will be allocated to support districts effectively. With this document, districts can make informed decisions about which services best align with their unique needs and goals, selecting from available services each year.

Additionally, the Local Service Plan plays an essential role in promoting equity and access by ensuring that all districts—regardless of their size or individual resources—have the opportunity to access crucial educational services, especially in areas where Lane County's smaller districts may struggle to provide these independently. The plan also promotes accountability and transparency, clearly documenting the services to be delivered and setting mutual expectations for the ESD and our component districts. This transparency enables stakeholders to assess service outcomes and effectiveness.

Recommended Use of the Local Service Plan

The district may:

- familiarize itself with funding structures and services in the Local Service Plan.
- assess their needs and priorities to meet their goals and mission.
- determine which ESD services could provide valuable support or enhancement.
- submit its service order package to the ESD by March 31st, 2026.
- review the document throughout the year to determine if additional services are needed.

How Services are Funded

State School Fund resources are provided to ESDs to offer services for children with special needs, technology, school improvement, and administrative support to component school districts as described in the Local Service Plan. Pursuant to ORS 327.019, 90% of these resources are allocated to component school districts based on weighted student population (ADMw). Of the amount allocated to districts, approximately 12% goes directly to services available to all districts (Core Services), while approximately 88% is allocated as flex funds, which can be used to purchase services through the local service plan menu (Menu Services or Custom Services).

Local Service Plan Resources

Core Services provide stability and flexibility in meeting student needs where the level of support may vary from district to district and year to year; this commitment supports the equitable distribution of resources for students county-wide and basic operational needs.

Menu Services are optional for districts to choose from using their allocated Flex funds and individual district budgets.

Custom Services can be requested by an individual district or group of districts based on a specific need. These services may include staffing or the provision of services.

Grants and Contracts support specialized, innovative, and often temporary programs or services with qualifying conditions at no cost to districts. The ESD intentionally applies for grants that extend the services of the four component areas provided through the State School Fund to support the educational mission of the county.

State and Federal Contracts are in place to ensure that the ESD supports school districts in implementing state and federal educational policies and programs, complies with mandates, and provides specialized services.

Grants are targeted funds that the ESD has identified and applied for to support specific educational programs and initiatives for the component districts.

Core Services

Core services are available to all component districts at no cost and represent approximately 12% of the local service plan allocations to districts.

SERVICE AREA	SERVICE	DESCRIPTION
Programs for Children with Special Needs	Life Skills High-Cost Pool	Provides funds to districts with an overrepresentation of Life Skills students (including districts that do not participate in the ESD Life Skills consortium).
