Dr. Shelton presented the possible designs for the 41<sup>st</sup> street houses, which can be wider and more stories than the houses on Avenue R. The project could provide 48-80 beds depending on if the houses are built as 2 story or 3 story. Dr. Shelton added that he would like to bring a proposal to the Committee next month for the design process to begin on the 41<sup>st</sup> street houses, as soon as the current housing project is done. Discussion was had on parking that would needed for the new houses. No new parking would be needed based on the parking that is already available. Brief discussion was had on a smaller lot that the College owns, and that it is not large enough to put housing on.
