Full-Day, In-Person Instruction Family Feedback Questionnaire
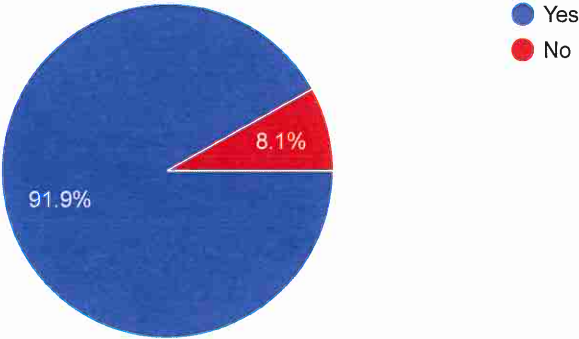

690 responses

When the District extends the school day for elementary and middle school students, all students who are attending in person will need to eat lunch. Lunch would likely be one hour in length, including the time allocated for lunch and recess. Students will be unmasked while they eat lunch supervised in either their classrooms or other common spaces, which may include outdoors, hallways, foyer areas, or other unconventional (but safe) locations. Students will continue to be socially distanced according to ISBE and IDPH guidance during the lunch period. Additionally, the lunch period will likely look different in each building due to how the facility is configured. Please consider this information as you respond to the questions below.
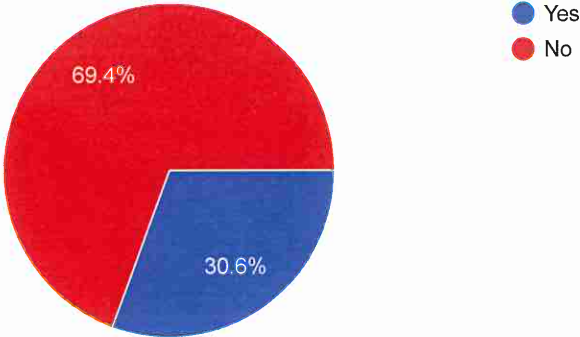

Once the District expands in-person instruction to a full day, do you intend to have your child return to school? Please keep in mind that elementary students would attend for a full day five days a week. Roosevelt, due to student density, would have the instructional day extended, but remain on a hybrid schedule.
