Introduction

The Waunakee Community School District (WCSD) is dedicated to fostering an inclusive, equitable, and diverse educational environment where every student feels valued, supported, and empowered to achieve their full potential. Our three-year plan for Diversity, Equity, and Inclusion (DEI) aims to address systemic inequities, promote a culture of belonging, and ensure equitable educational outcomes for all students. The District's equity statement clearly delineates the District's beliefs:

The Waunakee Community School District embraces the differences among our students, staff, and families. We work to provide a safe environment with access to resources, opportunities, and instruction for all students to reach their full potential in the classroom and beyond. We strive to create a culture of dialogue, acceptance, and inclusion. We are committed to engaging all students so that they may thrive academically, socially, and emotionally in an ever-changing multicultural society.

Understanding Disproportionality

Disproportionality in education refers to the overrepresentation or underrepresentation of a particular demographic group in specific categories, such as special education. In WCSD, we have identified a concerning trend where African American students are disproportionately over-identified for special education services. This indicates potential biases and systemic barriers that need to be addressed to ensure that all students receive appropriate and equitable support. In order to address this trend of over-identification of African American students in special education, the federal government requires us to create a plan to address systemic barriers and biases. The District is also required to set aside 15% of our federal special education funding to support the work outlined in our Comprehensive 3 Year DEI Plan.

Current Data and Challenges

Our data reveals significant disparities in the experiences and outcomes of our students:

- » **Sense of Belonging:** While 71% of white students report feeling a sense of belonging in their school, only 55% of students who identify as being of multiple races feel the same.
- » **Behavior Incidents:** African American students are twice as likely as their white peers to have a behavior incident that requires intervention from administrative or student services staff.
- » **Academic Performance:** The lowest scoring demographic group on average between 2017 and 2022 has been African American students.

These statistics highlight the urgent need for the implementation of a strong universal curriculum that includes differentiated instruction for all students. Targeted academic and behavioral interventions are also necessary in order to create systemic changes that will help create a more inclusive and supportive educational environment.

DEI Goals

As part of the District's disproportionality identification, the disparities reflected in our data need to be addressed through identifying specific root causes, creating a vision for improvement, developing goals and implementing a plan to address the disparities. All of these components are then submitted to the Wisconsin Department of Public Instruction (DPI) each year that the District is identified as disproportionately overidentifying a specific demographic group of students, in this case African American students, in special education. The following components are included in our DPI plan and are tied directly to the goals and action steps outlined in our Comprehensive 3 Year DEI Plan.

Root Cause Analysis

Analysis of many data points, including academic data, behavioral data, attendance data, staffing data, and special education data were all reviewed and then a root cause analysis was conducted to determine the causes that underlie our data disparities. The follow root causes were identified:

- » Implicit bias in staff plays a role in how students of color perform academically and socially
- » Culturally responsive practices have not been uniformly implemented across all schools
- » There is a lack of understanding of the perspectives of our stakeholders, including our students and parents of color.

Vision for Improvement

- » Staff will reflect on their own biases and how they impact their work with students
- » Staff will understand how to implement culturally responsive practices and reflect on the level of implementation in their own classroom
- » Students of color will feel more connected to their school community
- » Parents will be meaningfully engaged in educational decision making across the District
- » School staff will understand how students of color feel and what they need to be successful in their school environment
- » Students will feel a sense of agency when it comes to improving the culture/climate of the District through their work with the Multicultural Student Achievement Network (MSAN)
- » Staff will continuously reflect on student feedback through PERTS Elevate cycles

Goals

1. Decrease Achievement Gaps: By the summer of 2025, we aim to decrease gaps in reading and math achievement on the Forward Exam by 15%. Each school will use local assessment data to track student progress across all demographic groups. Teams will utilize our electronic data warehouse to review data each term so that student interventions can be adapted to improve student growth over time.

2. Increase Sense of Belonging: By the spring of 2025, we aim to increase the sense of belonging for students of color by 10% as measured by the Dane County Youth Assessment for students in grades 7-12 and a local assessment for students in grades K-6.

3. Reduce Disproportionality in Behavior Incidents: By the spring of 2025, we aim to decrease the risk ratio of behavior incidents for African American students from 1:9 to 1:5, based on building level behavior incident data.

Implementation Plan

- » Create a DEI Steering Committee to lead the DEI work across the District
- » Create Sub Committees of the DEI Steering Committee to address hate speech, special cultural observances, and culturally responsive practices.
- » Provide professional development for staff on implicit bias
- » Provide professional development for staff on culturally responsive practices
- » Create a walkthrough tool to assess the implementation of culturally responsive practices across the District.
- » Establish partnerships with outside organizations that can help achieve our DEI goals.
