

## Site Report – Chignik Lake – March 2022

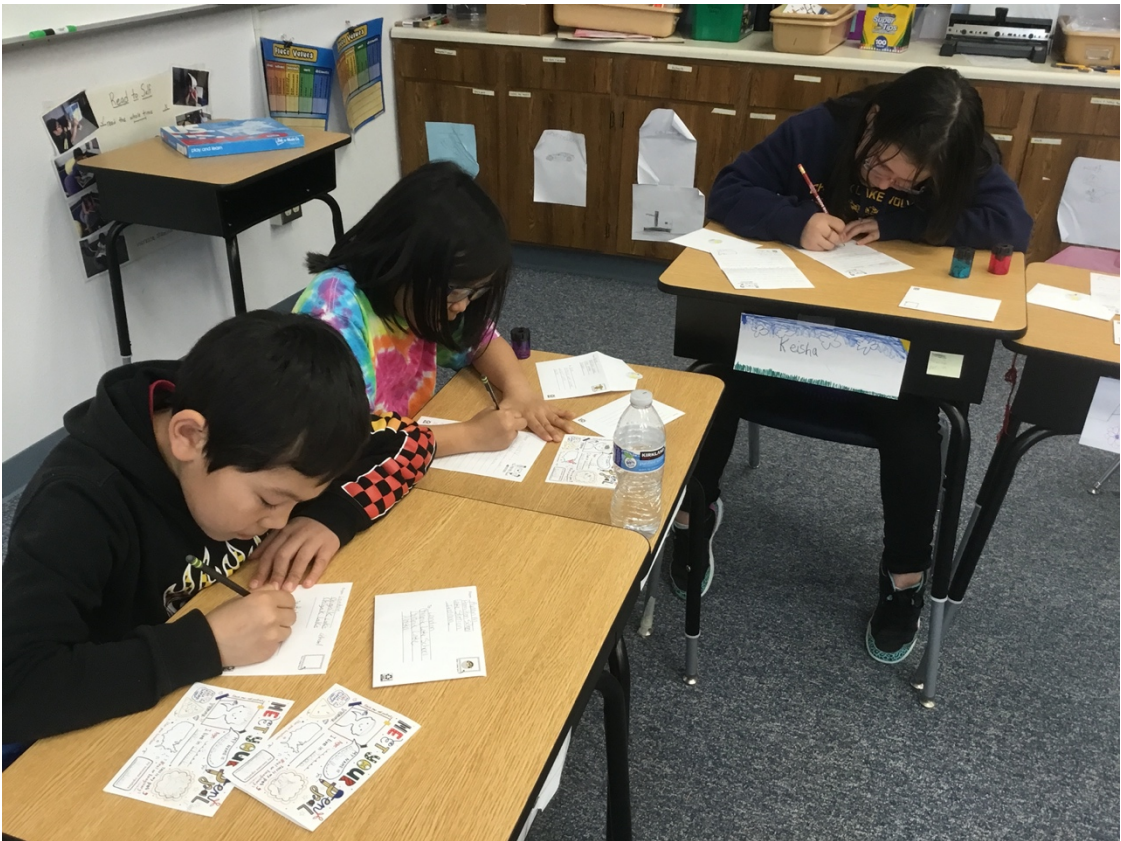

<b>To: Superintendent Kasie Luke and LPSD School Board Members</b>	<b>From: Barbra Donachy/Head Teacher, Chignik Lake</b>
<b>Outstanding Activities and Events</b>	
<p>March was in like a lion and out like a lively lamb! Students set goals in order to achieve proficiency in the standards they still need to pass for their levels. Several students have tutors from Kutztown and iTutor. They loved spending time with tutors and are eager to work with tutors again next year. Their excitement about their tutors affected those around them, who also requested tutors next year. We were sad to see our student teacher depart. We all enjoyed her energy and her extra help with students. A few students were ready for end of level tests and are already working on next year's standards. This month, we were able to meet with 100% of our families for parent/teacher/student conferences. The elementary students presented their work with their own personal highlights during the conferences. The students have been practicing for next month's testing and we've tested our systems. All should be a go! As the month came to a close, one of the students remarked how much work we've done in such a short month.</p>	
<b>Personnel</b>	
<p>All personnel are working well. We did lose a custodian this month, but we've been able to cover the hours with people on our sub list. We finished the month with an application for someone to do custodial work.</p>	
<b>Standards Based System/Curriculum Progress</b>	
<p>Students are feverishly working and focused on their end of the year goals. Tutoring services helped to give students additional one-on-one support. This support ended at the end of March.</p>	
<b>Technology Progress</b>	
<p>All is functioning well. Our community library computer has reached the end of its life. It's looking like the village will fund a new computer for the library. Thank you, Chignik Lake Village!</p>	
<b>Facility Update</b>	
<p>Our maintenance staff is still taking terrific care of our school and teacher buildings. Our subs are keeping everything clean. Our inventory and ordering for the fall is complete.</p>	
<b>LSAC Activity</b>	
<p>The LSAC met on March 7. The next meeting is scheduled for April 11. Minutes will be sent separately.</p>	
<b>Volunteer Report</b>	
<p>Community volunteers continue to pitch in with post office pick-ups, air field runs, and running a chess club.</p>	
<b>Professional Development</b>	
<p>Staff continue to work on personal goals to improve their professional practice.</p>	
<b>Pupil Attendance</b>	
<p>We still have fifteen students enrolled and all are regularly attending face-to-face.</p>	
<b>Student and Staff Safety</b>	
<p>All staff and students have been careful in following Covid safety protocols. All have been willingly participating in daily health screenings. As of the last LSAC meeting, the mandates for masks have been removed. We are still offering Covid testing. Families have been voluntarily using the tests five days after arrival back in the village to double-check they do not have Covid before re-entering the school.</p>	
<b>Subsistence Calendar</b>	

Students are working hard within the calendar framework. We can't believe we are already at the end of another school year!

**Other**

Another beautiful day beginning at Chignik Lake.

Getting to  
know our  
pen pals in  
Indiana.

Chess  
Club

The view from Chignik Lake teacher housing.
