Subject: Career and Technical Education Annual Update

MISD Board of Trustees: February 16, 2021

Agenda Item – 5E

Background Information

Career & Technical Education is designed to bring academic content to life through relevant, real-world application that is rigorous and engaging for all students. The purpose of this presentation is to provide an overview of the CTE program, including program quality indicators and goals, to the MISD Board of Trustees. The presentation will briefly update program success measures and student involvement opportunities.

February is designated as Career & Technical Education (CTE) Month across the country. Student participation in CTE courses and activities in our school district continues to grow at all secondary grade levels, and we are excited about how our current student successes will positively impact our community for years to come.

Fiscal Implications

None

Administration Recommendation

None
