Re: Approval of School Specialty for CHS Fine Arts Building Furniture and Equipment

The 2023 Bond election (Proposition A) includes furniture and equipment additions for the newly constructed CHS Fine Arts building. School Specialty worked closely with Gerry Miller, Director of Fine Arts, in planning the furnishings for the fine arts building.

The furnishings include tables and chairs for instruction, office furniture, casual seating for common areas, storage shelving, etc.

This quote was competitively procured in accordance with Texas Education Code §44.031. The total cost for the furniture, including \$50,000 in contingency, is \$253,972.12. This amount is well under the amount allocated for this project. I do anticipate some additional furniture and equipment needs as fine arts becomes acclimated to the new building.

RECOMMENDATION: That the Coppell ISD Board of Trustees approve the quote from School Specialty for the furniture and equipment for the Coppell High School fine arts building at a total cost not to exceed \$253,972.12.
