

Principal's School Board Report  
Mitkof Middle School/Petersburg High School  
2/14/25

- Mathematics curriculum development has reached the final draft stage and I am providing the board with a link to the document that. Curriculum documents are living documents and will have adjustments brought to the board over time. A link is below.
- We are beginning text review of math materials for the curriculum adoption as they arrive and hope to complete review in time to complete a March order.
- We surveyed teachers concerning our bell schedule and have some results if the board would care to see them. The link is below.
- We will be surveying student interest on courses for next school year as we create the class schedule for next year.
- We have restarted our Visible Learning class observations and peer visits in the school. This supports the staff and administration commitment to collaboration for improved instruction.
- As a faculty we are discussing a number of policies on absence makeup work and late work policies. It is our purpose to come to a more uniform and clear method for applying these policies.
- The teaching and support staffs within the high school and middle school have demonstrated exceptional professionalism throughout this year. It is truly an honor and privilege to work with such incredible people.

Student Counts: MMS = 114  
PHS = 145
