

Our progress this last month:

- Installing new equipment in New Addition building.
  - Additional computers, wireless devices & printers arrived
- Setup remainder of furniture for New Addition
- Complete Sentry Security walkthrough for New Addition (Alarm Panels/Keypads & Video Surveillance)
- Continue room by room setup of technology as teachers and staff clean and organize their rooms.
  - Lengthy process considering room moves and building maintenance.
- Work with CIT Technology to start planning upgrade on bell systems
  - In process of receiving quote of estimated work and cost.
- Continuing network remediation by cleaning server closets and organizing
  - In process of cleaning racks and closets
  - Major re-wiring put on hold until planned weekend or next school break. Downtime is too significant with first day of school approaching fast.
- With help from our Director of Special Programs, Alma Gutierrez, we successfully applied for a 1:1 blended learning technology grant.
- Setup necessary accounts for new District employees
