		PO #:	

\*The Program Administrator is the person within your organization who will be managing the online subscription account. The Data/SIS Manager, if applicable, is the person at your organization who will be working with the program admin to manage the rostering of students and users and classes. They are often the SIS specialist. Please list name and contact information for at least one person who is authorized to change the Program Administrator in the event that person leaves your organization.

\*Licenses for the DESSA Comprehensive System are consumed when a student has been uploaded into the DESSA system and will when an assessment has been completed for a student. Only update students whom you intend to assess. \*Unused\* licenses do not roll over. Annual licenses for SFTP are site licenses and require one license per account per year.
