RE: Trane heat pump systems

Thank you for the opportunity to quote you for the following Heat pump system change outs for the classrooms as specified below.

Middle school classroom-

303-(3ton), 301-(3ton), 304-(3ton),
201-(4ton)202-(4ton), 204-(4ton),
206-(4ton)102-(4ton), 101-(3ton),
103-(3ton), 105-(3ton)

Primary school classrooms-

206-(3ton), 208-(4ton), 205-(3ton)
209-(3ton), 210-(4ton), 203-(3ton)
105-(3ton), 101-(3ton), 201-(4ton)
212-(4ton), 301-(3ton)
305-(3ton), 307-(4ton), 310-(3ton)

Units will be Trane heat pump systems.

3-tons-4TWA3036A4000a
TEM3AOC42S41SA
WGM1505A

4-tons-4TWA3048A4000A
TEM3AOB48S31A
WGM1505A

Description of work performed:

Outside: Remove and dispose of old York heat pumps and install new Trane heat pump systems.

Inside: Remove and dispose old York air handler, flush AC lines, install new metal transition and new Trane air handlers, filter base for easy filter changes, check for any freon leaks and start up, run and check for proper operation or equipment.

The following price includes all equipment, duct material and labor to install 15- 3 ton systems and 10- 4 ton systems in the Middle school and Primary school classrooms.

The investment for these 25 Trane complete heat pump systems will be
\$108,800.00

(Warranties: 5 year all parts, 1 year labor.)

Start date- June- 16/2015

Completion date- August -1/2015

Note:

AHRI CERTIFIED

CERTIFICATE #-7501313

WGM1505A heater kits take around 3 weeks to ship out. They have to be built by another company.

Sincerely,

Phillip Herrington

HEATING & COOLING

Mineola ISD Heat Pump Change-outs

Included in this packet is the turnkey installation of the 26 3-Ton and 4-Ton units located around the Middle School and Primary School building. Additionally, we have included a separate proposal for the turnkey installation of 2 additional units as well as the service disconnects for all 28 units titled "Side Items".

\$134,690.28	26 total system change-outs
\$ 19,332.76	2 additional system change-outs, 28 disconnects

Total \$154,023.04

We will provide all material and labor to complete the following:

Remove all current equipment and dispose of properly.

Install all indoor and outdoor equipment. All equipment will use current ductwork and current refrigerant lines.

Provide electrical inside conduit from the unit to service disconnect.

Clean up all trash and debris.

1 year labor warranty, 5 year compressor warranty, and 1 year warranty for all other parts.

Parts of the units that will be staying

All interior ductwork and copper lines.

Current Major Commercial Accounts

Kidd Jones - service/maintenance/repair for all greater Tyler area facilities

Whataburger - New construction installation for Tyler area facility

Subway - service/maintenance/repair for Longview-Tyler area facilities

Mercedes-Benz of Tyler - service/maintenance/repair on all rooftop and indoor units

Sealtite Building Fasteners - construction and installation of 40 Ton Liquid Chiller

WHATABURGER.

Date: 6/10/2015 4:36 PM
Subject: Mineola ISD middle school HVAC project

William & Ricky,

Based off of the information provided to CLEAResult, Here is an overview of the incentive Mineola ISD will receive if the existing equipment is replaced with the listed items.

Total kW Savings	Total kWh Savings	Estimated Payment
5.33	9,580	\$ 2,727.26

Estimated annual savings are $9590 \times .080$ per kWh = \$767.20

If they were to increase the SEER by one (14 & 14.5 SEER), the project's estimated savings would be:

Total kW Savings	Total kWh Savings	Estimated Payment
10.05	18,065	\$ 5,142.77

Estimated annual savings is $18,065 \times \$0.08/\text{kWh} = \$1,445$. If the project cost increased \$8,000, the higher efficiency units would be around \$2,000 more cost effective year 15.

Please review & let me know if you have any questions.
