DENTON HIGH SCHOOL

German Club students finish eighth in state

Denton High School accounted for 16 top-10 finishes and an eighth-place showing at the 33rd annual Texas State German Contest that was held at the Texas State University in San Marcos in February.

Four students represented Denton High against hundreds of students from across the state in a variety of academic and cultural categories highlighting the German language and culture. The state competition allows German Club students and sponsors to share what they've learned throughout the year in a fun and festive atmosphere, while providing scholarship opportunities for students and grant opportunities for teachers.

Denton High's state winners included: Logan Maltz, who finished as the runner-up in sight reading and spelling, took third in vocabulary, grammar and poetry memory, fourth in extemporaneous speaking, culture and reading composition; and fifth in listening composition; Katheryne Ricardo, who finished third in duet acting and eighth in grammar and scavenger hunt; Sydney Rollins, who finished third in duet acting and eighth scavenger hunt; Lupita Montoya, who finished seventh in shirt design, eighth in scavenger hunt and ninth in reading composition.

Sandra Dieckman is the sponsor.

RYAN HIGH SCHOOL

Ryan High i-TECH students win at State

Five Ryan High i-TECH club students won first place and two earned second place at the Technology Students Association State Competition last weekend hosted at the Waco Convention Center. Ten students from the Ryan High i-TECH Club participated in the state competition.

Ryan High's winners in Architecture Design - various categories include: David Chacon, first place; Jaun Ocampo, first place; Jennifer Munoz, first place; Kyle Lucas, second place; Josiah Sweatt, fourth place; Elizabeth Hernandez, fifth place; Brittany Ward, sixth place. Winners in Metal Construction - various categories include: Justin Napier, first place; Jacob Fuess, first place; Haden Willis, second place.

The Ryan i-TECH Club encourages students to develop projects based in architectural and engineering concepts to compete at district and state level competitions. At monthly meetings, students learn from industry professionals to expose them to real world issues and professionals.
