

Citizenship Proficiency Scale

Attendance and Engagement

- Attending class and engaging in class are fundamental to learning and being a responsible citizen.
- Expectation for students: Be where you are supposed to be and do what you are supposed to do.
- Beginning with the 2024-25 School Year:
 - Citizenship grades will be recorded on the report card.
 - Programs such as rewards and/or extracurricular eligibility are impacted.
 - Study Hall and/or other interventions will be required for those in yellow/red for attendance.
- Beginning with the 2025-26 School Year:
 - No academic credit is awarded if any of the citizenship grades are a U.
 - The U can be made up, and academic credit awarded, if the required conditions are met. School administrators will determine the conditions/contract based on severity.
