

Board Report

Wellness /Prevention

Working with the students on various projects and providing prevention education and activities, and coping strategies such as beading, sewing, drawing, painting, basically anything to keep their hands busy and wanting the urge to vape. I have been helping with the Music symposium class with BHA and BHS, making contacts with local resources for summer support. I am already meeting the new Tribal Health CEO, planning events, donations, and collaboration on various prevention activities. I completed my dissertation and will graduate on May 8th, with a PhD in Indigenous & Rural Health. I would like to request permission to present the Wellness Model and Standard of Operation. This request would also be up for discussion to adopt the model and SOP for the School district. Kari McKay and I have been following up with students on the insight list to ensure they complete their Everfi modules. The insight class is on Wednesday for the middle school and high school. For students who need extra support, such as addiction and mental health counseling, I make referrals with the parents' consent.

Bobby, Leo, and I are planning the EOP and Sweet Pine Run for July. I have been working with the Tribal Health programs to donate funding or manpower for the upcoming events. The principals and councilors have been reaching out to external resources for students who violate offense #3.

Here is the plan that is in the HS and Middle School policy:

Offense #1 Everfi Modules

Offense #2: 4-hour Insight Class

Offense #3: Assessment done by LAC and treatment with consent from parents

Offense #4: ?

- Below are pictures from the all-night prom we had
- 121 students attend
- 6 chaperones, this includes me
- The total cost of the event was approximately 9,500-10,000.
- There were 2 students caught with a vape at the prom
- 3 students used the safe ride home
- Prior to the Prom, I had EMS, Glacier County, Tribal Behavioral Health, and the Fire Department come talk to the students about safety on prom and graduation night.

Future activities: below are the upcoming events.

- **Earl Old Person Wellness Run host by the Wellness committee & tribal Health**
- **Sweet Pine Run Hosted by BPS Wellness & Tribal Health**
- **Planning for the Fire in the Mountain 2026 festival.**
