

Dear Board Members,

Greetings from Glendale. March was a quiet month here at Glendale. The students are enjoying the warmer weather and more time outdoors.

We began the month with a visit from the GNP rangers. The students created and named their own constellations and enjoyed a Native American story about the seven brothers constellation. The older students tracked the Iditarod dog sled race and each student predicted who they thought would win. We had a winner- congratulations Lana Waldner.

We had four students complete MontCas test. They all put forth best effort.

We have finished 3rd quarter testing and assessing and we are checking our pacing schedule to make sure we are on track for the end of the year.

Your partners in education,

Ms. Show and Mrs. Christoferson
