7. Review of Advance Placement (AP) Data

Presenter: Halem High School Associate Principal Jeremy Bois

AP Data

There has been a steady increase of AP Exams taken from 2011-2021 with the exception of the 2015-2016 where it dipped 14%. The 2020-2021 school year has 741 AP student enrolled.

AP Passing Scores

From 2011-2015 there was a slight increase of AP Passing Scores. Between 2016 and 2017 there was a 52% increase. For the past three years, AP Passing Scores have leveled off.

AP Date-Average Score by Race

Comparing scores by sub levels of Race, we would like to have the sub level be even. 2018 Scores by Race data shows a few sub levels higher than the rest. 2019 data shows one sub level higher than all other sub levels. While the 2020 sub levels are starting to even.

8. Review of Graduation Rate Data

Presenter: Harlem High School Associate Principal Jeremy Bois

4 Year Graduation Rate

The graduation rate had an average of 74.4% from 2012 to 2016. From 2017 to 2020 the average graduation rate was 81.7%. There was an increase of graduates and would like to see a 90% graduation rate for 2020. To help the increase graduation rates, one way may be to have students feel like they can have that relationship to follow up teachers. Also, look into career paths that are more meaningful to students. The Course Catalog may want to be reviewed to make these changes.
