Background:

Instructional Coaches were added in Antioch District 34 in the year 2008 as an on-going district embedded professional development resource. Over the years, the number of Instructional Coaches has declined but has remained consistent at 2 employees for more than 5 years. Instructional Coaches are teachers and members of the AEEA and not administrators. Instructional Coaches support academic growth and social emotional needs of ALL students through the coaching and professional development conducted with the District 34 staff members while at the same time aligning their work with the District and Teaching and Learning Department goals.

Through future agenda items, the Board of Education has requested a 2019-2020 Instructional Coaches update.
