## EDUCATIONAL PHILOSOPHY

---

~~The Board believes education is the foundation of a healthy productive life.~~ The Board believes education should be shaped by purposes rather than by forces.

This District's education system, while maintaining flexibility in adapting to an ever-changing society, is dedicated to the personal development of each student to his/her potential through a sequentially coordinated curriculum that allows for individual differences, ~~rigorous academic content standards~~ becoming proficient in the knowledge and skills of the student's current grade level and opportunity to succeed.

As students develop abilities, they are expected to ~~acquire proficiency in the skills subjects~~, attain efficient and satisfying work habits, ~~grow physically strong~~ develop physically and cognitively, acquire wholesome interests, responsibly direct their lives, develop desirable social attitudes, assume citizenship responsibilities, learn their heritage and their place in a global society and cultivate intellectual interests.

The district supports academic growth beyond proficiency in the knowledge and skills of the student's current grade level and encourages students to attain aspirational goals that are individually challenging.

To this end, staff members will strive to aid each student's intellectual, physical, ~~moral~~ character, emotional and social growth so that he/she may become a responsible community member and lead a personally rewarding life.
