

## **Kali Athletic Director Mid-Season Report**

**December 12, 2023**

Dear Superintendent Vadiveloo and School Board Members,

It has been an exciting year so far in Point Lay. The school has hosted multiple volleyball games, and we have had enthusiastic participation from both our athletes and community. Basketball season has now started, and in anticipation of the season starting, Point Lay is preparing for prom and basketball regionals at this time. I am conversing with various participants to seek out ways I can help make these events a success. At Kali School, we actively seek to engage students in athletic opportunities and provide support for the students and parents in all matters related to participation. We seek to provide safe and rigorous opportunities for our student athletes, so they develop the social and emotional traits necessary to become happy and successful adults in the future.

Sincerely,

Jonathan Rodriguez

Below, you will find the requested information regarding our season.
