**533 WELLNESS**

[Note: All school districts that participate in the National School Lunch and School Breakfast Programs are required by the Healthy, Hunger-Free Kids Act of 2010 (Act) to have a wellness policy that includes standards and nutrition guidelines for foods and beverages made available to students at CCS during the school day, as well as, specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. The Act requires the involvement of parents/guardians, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the public in the development, implementation, and periodic review and update of the wellness policy. The Act also requires a plan for measuring implementation of the policy and reporting wellness policy content and implementation issues to the public, as well as the designation of at least one person charged with responsibility for the implementation and oversight of the wellness policy to ensure the school district is in compliance with the policy.]

**I. PURPOSE**

The purpose of this policy is to set forth methods that promote student wellness, prevent and reduce childhood obesity, and assure that school meals and other food and beverages sold and otherwise made available at Crosslake Community Schools (CCS) during the school day are consistent with applicable minimum local, state, and federal standards.

**III. WELLNESS GOALS**

[Note: The Act requires that wellness policies include goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness.]

2. CCS will encourage all students to make age appropriate, healthy selections of foods and beverages, including those sold individually outside the reimbursable school meal programs.

B. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities such as watching television;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers may provide short physical activity breaks between lessons or classes, as appropriate.

C. Communications with Parents/Guardians

1. CCS recognizes that parents/guardians and guardians have a primary role in promoting their student's health and well-being.
2. CCS will support parents'/guardians' efforts to provide a healthy diet and daily physical activity for their student.
3. CCS encourages parents/guardians to pack healthy lunches and snacks and refrain from including beverages and foods without nutritional value.
4. CCS will provide information about physical education and other school-based physical activity opportunities and will support parents'/guardians' efforts to provide their student with opportunities to be physically active outside of school.

#### IV. STANDARDS AND NUTRITION GUIDELINES

[Note: The Act requires that school districts have standards, selected by the school district, for all foods available on the school campus during the school day with the objective of promoting student health and reducing childhood obesity. For foods and beverages sold to students during the school day on school campus, the Act requires that school districts also have nutrition guidelines.]

A. School Meals

[Note: The Act specifically requires that the wellness policy contain standards and nutrition guidelines for all foods and beverages sold to students during the school day that are consistent with the meal requirements for lunches and after-school snacks set forth in 7 Code of Federal Regulations section 210.10 and the meal requirements for breakfasts set forth in 7 Code of Federal Regulations section 220.8.]

  2. All competitive foods will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.
  3. KIDS Care (before- and after-school) program must also comply with CCS' nutrition standards unless they are reimbursable under USDA school meals program, in which case they must comply with all applicable USDA standards.
