

# Request for Curriculum Change

## Deletion of Course/Content Area

Date: 10/27/2017

Department/Subject: Agricultural Education

Person(s) initiating the request: Mike Miron

School(s): High School

Grade(s): 10-12

Course Title: Plant Science - Propagation (0503)

Describe the process that led to this request for the deletion of course/content area:

We currently have a CIS Plant Science Propagation class offered concurrently with the University of Minnesota. Basic plant science propagation skills are currently taught in Plant Science - Concepts. The duplication of these course titles causes confusion among students and splits enrollment. By eliminating this class we will clearly identify the CIS offering as advanced level curriculum. As a result, the Agricultural Education PLC recommended deleting this course.
