

John Troy
Assistant Superintendent & General Counsel

Board Report

December 12, 2025

1. **Levy** - The tentative levy is in your Board documents and will be presented during the levy hearing at the Board meeting. Please let me know if you have any questions.
2. **Banking Changes** - We have worked with BMO and are happy with their services. While they are charging us fees they are also giving us interest on our fund balance. The net should be a positive gain for the district of \$50-75,000 dollars.
3. **Equipment and Furniture RFP's** - We are putting out Request for Proposal documents for the various equipment and furniture needed to equip the new building additions at South and Central campus. We envision bringing this back to the Board for approval in January.
4. **Asbestos Abatement RFP** - An RFP for the second phase of the Asbestos abatement for the Central Campus CTE rooms has been issued and the results are in your board documents. We anticipate formal approval at the Board meeting with the work to begin on December 26th.
