## ACCESS Testing

The ACCESS Test is an assessment designed to assess the English language proficiency of students who are non-native English speakers. It's given once per year in educational settings to determine students' language skills and their readiness to participate effectively in English language classrooms. The test consists of four main components: Reading, Writing, Speaking, and Listening. When someone "passes" the ACCESS Test, it means they demonstrate English language proficiency at a level that allows them to effectively participate in English language classrooms and academic activities. It means they have acquired the language skills necessary to comprehend and communicate effectively in English, which is crucial for academic success and social integration in English-speaking environments.

In order for students to achieve the seal of biliteracy in high school, students need to score at an intermediate level of 5 or higher.
