Federal Programs Director  
March 2015

**Reallocated Funds Application**

We received word that our application for reallocated funds was not granted. If received, these dollars would have been spent to allow 50 Homedale K-5 students to attend Marsing's Jump Start Title IA summer school in August. While we won't have these additional funds from the SDE, I am working on the Title IA budget to find dollars to still provide some support. Homedale Title IA students would benefit from a summer school opportunity and we're committed to finding federal dollars to make it happen.

**ESEA Conference**

Formally the Title I Conference, the ESEA (Elementary and Secondary Education Act) Conference is being held in Boise on April 15-17. We are looking at having representation from the administrative and leadership teams attend this conference. In addition, Homedale and Marsing have been asked to share their work on the combined Migrant summer school held last summer. Angela Correa will be presenting.
