BOARD MEMBERS  
AUTHORITY

BBE  
(LOCAL)

- CONSTITUENTS 1. For the purposes of this policy, constituents are residents of the community who are represented by an elected Board member. Constituents are receivers of public services and provide public funds for those services.
- GOVERNANCE 2. For the purpose of this policy, governance shall be the primary role of the elected Board members. Governance involves ensuring the delivery of required educational and support services in the District by providing oversight and policy to the Superintendent regarding those services and desired results. Governance is strategically based guidance and policy focused on affecting system improvement.
- MANAGEMENT 3. Management shall be the responsibility of the Superintendent, who is an employee of the Board and operates within District policy established by the Board and all applicable state and federal laws and regulations. Management includes directing staff, allocating resources, administering programs, and providing support services to improve school system effectiveness and to successfully achieve District academic objectives.
- APPROPRIATE SERVICE 4. Appropriate constituent service shall be defined as each Board member collaborating with the District administration to help citizens receive the services that TEA intends the District to provide via appropriate District processes and resources. The administration shall work to resolve citizen concerns to ensure fairness and equity. This shall not be the role of the Board.
- INAPPROPRIATE SERVICE 5. Inappropriate constituent service shall be defined as Board member involvement in the day-to-day decision making that may lead to favoritism being shown to an individual outside of recognized processes. Board members outside of a quorum cannot award or grant special advantages to employees, parents, students, vendors, or any other person or entity outside regular District administrative decision-making processes established by policy or administrative directive.
- SYSTEM Recognizing the need to provide quality service to constituents, the Board and the Superintendent shall put into place a system for tracking and responding to constituent inquiries in a timely manner.
- The goal of the District is to respond promptly and professionally to any questions or concerns of the public. To this end, the public is encouraged to use published telephone numbers to contact the appropriate District personnel regarding issues or questions. Another valuable resource is the District's Web site, [www.ectorcountyisd.org](http://www.ectorcountyisd.org), which contains policy, procedures, and

the status of various ongoing programs that will often answer many questions. The Web site also provides access to those who want to send questions and comments directly to the Superintendent using electronic mail.

If the above information sources do not provide answers, community members may contact Board members directly. Board members shall provide community members with the Superintendent's or designee's contact information. The Superintendent or designee shall track inquiries using a system with the following features:

- A protocol for handling constituent requests for information or assistance;
- A primary contact person on the Board who shall refer constituent service issue requests to the Superintendent as directed by the Board member;
- A feedback system so that Board members know the resolution of requests;
- An information management system for storing, tracking, categorizing, and analyzing requests;
- Periodic reports to the Superintendent and the Board on constituent requests, their resolution, and patterns in requests;
- Periodic reports on District system improvements made, in whole or part, as a result of constituent service requests; and
- Oversight of the system by the Superintendent's designee.

PROTOCOL

The District's constituent service flow chart shall track the recommended process flow for constituent service requests. [See BBE(EXHIBIT)]

MANAGING  
REQUESTS

Protocol is based on a reliable information network between the Board and the Superintendent for referring, tracking, and resolving constituent inquiries.

Electronic management of these requests shall be done via e-mail or other electronic means as the preferred method of communication and recordkeeping in the system. The Superintendent shall manage the tracking system and coordinate with appropriate District staff. Requests shall be tracked by the Superintendent by the category of request, the person assigned the lead for responding, the date of inquiry, and the date of response. This information shall be maintained in a consolidated database until reviewed by the Superintendent or the Board but for no less than three years.

The District's response shall be forwarded to the Board liaison for response to the constituent. The Board liaison is responsible for ensuring that the respective Board member is advised of action on the constituent requests, as well as keeping the constituent advised of the status of the request.

As appropriate, and when requested by the Board, the Superintendent or appropriate District staff member may respond directly to the constituent and copy the Board office on the response. This shall be noted in the tracking system maintained by the Board.

GUIDELINES FOR  
RESPONSE TO  
REQUESTS

Responses to constituent requests shall be managed on a priority basis. The Board liaison and District staff shall set priorities considering all requests. The priority in which requests are answered shall be based on the urgency of the specific issue and not the importance of each request. The Board considers all requests to be important and warranting an expedient response. In cases where extensive staff work is required to collect data or research information to respond, an interim response shall be provided to the constituent by the Board.

DATABASE  
MANAGEMENT

Constituent request data shall be managed by the Superintendent. As described above, statistics shall be collated for further review by the Superintendent.

Constituent responses shall be maintained in an electronic database for a one-year period from the date of the response or until a briefing to the Board is complete.

REPORTING AND  
SYSTEM  
IMPROVEMENT

Monthly, or as directed by the Board President, the Superintendent shall present a summary to the Board, which will include constituent request data, trends, conclusions, and recommendations for improvement. The Superintendent's report to the Board shall be in a suitable electronic document and shall include data and graphs portraying the results and processes involved. This report shall contain the most current information and shall also include comparative data and trend analyses.

Annual reports shall be presented to the Board on or about June of each year.

COMMUNICATIONS  
PLAN

The Board shall delineate processes for conveyance of constituent services with all stakeholders. [See BBE(EXHIBIT)]
