Objective:**

Priority 1: Student Achievement and Post Secondary
Preparedness
Objective 1.3: Safety and Well-Being

Priority 3: Parents, Families and Community Satisfaction and
Engagement
Objective 3.1: Parents and Families Satisfaction and Engagement

Priority 4: Strong Financial Stewardship and Internal System
Efficiency
Objective 4.1: Transparent Financial Stewardship
Objective 4.2: Effective and Efficient District Operations

Summary:

The District has previously identified the traffic conditions of the District that qualify as hazardous for students to walk and are within two miles from school. Per Texas Education Code, Subchapter D, Section 48.151(d-1), “a hazardous traffic condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition.”

Under the hazardous identification rules, students living in these areas are eligible for bus services and the District provides such bus services.

The Transportation Department performed its annual review of each campus and the areas where students reside. The hazardous qualifying areas remain the same. The resolution and identification report does not represent any changes to services already provided by the District. The recommendation is to redesignate the hazardous traffic conditions identified.
