

Monaco Elementary School School Board Communication

February 2014

February finds us working hard in **Fish Camp** (Tutoring). Students are excited to be a part of camp because we have wonderful teachers, tutors, and staff who are working diligently with our students to bring about successful results.

MES had a good turn out to our **STAAR Parent Information Night** on the 4th in the library. Concerned parents came to hear about STAAR and had numerous very thought-provoking questions.

Our counselor, **Aaron Brooks**, was honored on Friday the 7th for **National School Counselors Week**. She was very surprised and pleased with her gifts. MES students made her a huge poster citing the attributes of an excellent counselor.

District Site Base will be coming up this month. Teachers, staff, and parents look forward to seeing what improvements will be made.

Monaco PTO is sponsoring **Valentine Grams** this month for students. They will also have a huge kickoff for the **Fun Run** on the 26th with the actual event taking place in March. Fun Students can obtain sponsors or donations for their run. PTO takes very good care of our school and teachers and meets many of our academic needs throughout the school year.

First Grade will have their choir concert the evening of the 27th. They are always inventive and extremely cute in whatever they do.

Kindergarten will be taking a **Field Trip** to the Dallas Aquarium. What a great place! There are lots of cool exhibits including an inside rain forest. Their faces are always shining when they get off the buses.

We at Monaco Elementary wish you a Happy Valentine's Day!!
