

AllCare Health – CCO
CHIP Project Funding Proposal

Date of Proposal: **October 10, 2016**

County CAC: **Josephine County**

Workgroup: _____

CAC Champion: _____

Workgroup Members: _____

Community Partners: **Three Rivers School District, Jo. Co. Food Bank**

Amount of Funds Requested: **\$10,000**

Organization to receive funds: **All middle school and elementary schools in Three Rivers School District**

Purpose of funds: **Money will be used to provide items for needy students (food for long weekends/vacations, blankets, personal hygiene items, clothing, shoes, school materials, etc.)**

What other community partners are supporting the project? **Josephine County Food Bank helps the three high schools to ensure they have food for needy students. Our middle schools and elementary schools do not have easy access to the food in a timely manner to support students. Money will help fill the gap in food pantry supplies for these students.**

How will funding support CHIP/CCO goals/Triple Aim? **When students do not have basic needs, they are unable to access curriculum and instruction. By providing these essential survival items, students will have better overall health and will mentally be present in the classroom, thus improving academic success.**

What reports will be expected of receiving agency? Frequency? **Family Advocates at each school will track the students who receive help from these funds. Details will be kept on items purchased and if any community partner helped provide additional services.**

How will we measure success? **Success will be measured by the number of students who need assistance and the needs that are provided. We are hoping to get as close to 100% matching needs as possible.**
