Introduction to the Student Code of Conduct

A clear and specific Student Code of Conduct is an essential element in developing and maintaining a successful academic environment. As the expectations for student achievement increase, a Student Code of Conduct becomes increasingly important as a central element in the creation of the safe and caring environment necessary for student success. To be effective, a Code must explain expectations for behavior so that all members of the school community can fully understand them; it must also provide fair and consistent guidelines for consequences to be applied when behavioral incidents do occur to help ensure schools are safe places for students, staff, and the public.

This Code has been drafted to be as conversational as possible, but it is important to recognize that any code of conduct must comply with certain legal mandates for public schools and must be very clear about expectations, to include precise definitions where required. Therefore, this Code provides both “plain language” definitions for behavioral incidents as well as more technical definitions by the State of Arizona Department of Education.

This Code of Conduct includes the following elements:

- Prohibited behaviors are organized into categories to help students understand the related nature of certain behaviors and their relative impacts upon the learning environment.
- Behavioral rules and potential consequences for violations of the rules are combined together in tables to improve understanding and for ease of reference.
- Because technology has become increasingly important for students both within the school setting and in society at large, this Code incorporates rules on the use and consequences for misuse of technology, including computers and the Internet.

Shared Responsibilities for Student Behavior

In order for our community's children to maximize the benefits of a public education, everyone must share in the collective responsibility of promoting behavior that provides an environment in which all children can feel safe and learn. Certainly, all members of our community have a role to play as positive models for respectful behavior. The following paragraphs discuss basic responsibilities for students, parents, staff, and the community for ensuring a successful education for every child.

Students' Responsibilities

Students must take an active role in monitoring their own behavior and modeling appropriate behavior for their fellow students. In order to accomplish this, students must:

1. Become familiar with the conduct standards;
2. Strive to follow the conduct standards;
3. Accept feedback or discipline and use it to get better; and
4. Set goals for improvement.

Parents' and Guardians' Responsibilities

No role model is more powerful than a parent or guardian. Parents are "first and forever teachers" who set much of the direction for their child. Thus, parents and guardians must:

1. Become familiar with the conduct standards and discuss them with their children;
2. Support and reinforce behavior expectations and disciplinary policies of the school by assuming the primary responsibility for the discipline of their children;

3. Cooperate with and support teachers and staff;
4. Maintain regular communication with teachers regarding their children's school work and behavior;
5. Ensure that children attend school every day, unless ill, and that they arrive on time;
6. Teach their children to seek positive resolution to problems and to handle confrontation non-violently; and
7. Provide their children with a nurturing and healthy environment.

School Staff Responsibilities

Each member of the school staff has the primary responsibility of providing for the educational needs of all students and for the safety of the school environment. The school staff members are responsible for:

1. Maintaining an atmosphere conducive to learning and good behavior;
2. Teaching and modeling the conduct standards;
3. Building close and productive relationships with students and their families by demonstrating respect, caring and effective communication;
4. Utilizing informal strategies to intervene with behavior when appropriate;
5. Administering discipline in a fair and impartial manner to teach the principles of justice and citizenship by example;
6. Communicating on a regular basis with parents regarding their children's academic and behavioral progress; and
7. Involving parents in the process of problem solving.

Community and Family Service Organizations' Responsibilities

Public, private, religious, secular organizations and businesses can support the prevention, intervention, and remediation of issues associated with student discipline when they:

1. Assist in violence prevention, substance abuse education and character development.
2. Serve as a resource for families of students unable to meet the behavioral expectations of the school and community;
3. Assist students and parents in re-entry to schools following disciplinary exclusions;
4. Become partners with schools to coordinate services which support the school system disciplinary policies; and
5. Serve as mentors to help students develop positive social skills and to foster safe school environments.

Understanding the Code of Conduct – Q & A

Why does the District have a Student Code of Conduct?

Preserving the safety and protecting the health and general welfare of students, District employees, visitors, and volunteers on school property and at school activities are the legal and moral responsibilities of the Governing Board and its Administration.

The Amphitheater Governing Board and Administration recognize that students should have and need a certain degree of freedom to express their individuality in school, but any such expression should never intrude upon or endanger the freedoms of others. The Governing Board has therefore established policies and directed the Superintendent to establish regulations for student conduct which will strike an appropriate balance between individual freedoms and safe schools.

While the District and its parents, students and public have expectations for what student behavior should be like, and while we hope every student will strive to meet those expectations, we know that some students will violate those expectations on occasion. The severity of these violations will vary, but many violations will warrant correction – some action to help ensure the violation does not recur. As a consequence, state law mandates that each school district Governing Board establish rules for student behavior, to include consequences deemed appropriate.

Do schools have their own rules for student conduct as well?

The principal and faculty of each school may have established school-specific rules for student behavior and conduct. These school-based rules are in addition to those contained in this Code of Conduct, provided they are consistent with this Code of Conduct, the policies of the Governing Board, and applicable law.

Students must comply with both this District-wide Student Code of Conduct and with all rules established by the principal and faculty of the school they attend. A student's failure or refusal to comply with the rules of his or her school will subject the student to disciplinary action.

The principal of each school is required to ensure that copies of district and school rules pertaining to discipline, suspension, and expulsion of students are distributed to parents and students.

How does one interpret the Code of Conduct?

Generally, words will be given their ordinary meaning, unless those terms are otherwise specifically defined. In the event of any conflict in interpretation, the determination of the Associate to the Superintendent shall be final. The interests of safety and student

and staff welfare shall be paramount considerations in the interpretation of disciplinary rules.

What happens under the Code if a student only attempts to commit a prohibited act, or only aides or supports someone else to attempt or commit a prohibited act?

A student who attempts to commit, who conspires to commit, assists the commission, or conceals the commission of any prohibited act under the Code or the rules adopted by any individual school is subject to disciplinary action as if the student had committed the act directly. This ensures that students develop a sense of personal responsibility for behaviors they encourage or solicit in others.

To be subject to discipline in any circumstance, however, the student must have, at a minimum, actively engaged in some behavior which facilitated, promoted, or protected the underlying behavior.

What does the Code mean by “possession”?

A student will be considered to “possess” or “be in possession of” a substance or object if the student:

- (1) knows of the nature, existence, and location of the substance or object, and
- (2) takes control of the substance or object, regardless of the length of time of that control or their intention.

Students who “hold something for a friend” are responsible for possession.

What is the difference between criminal law and school district rules?

Court proceedings relating to an incident at school are separate from the school’s disciplinary procedures. Courts take actions for violations of laws – usually criminal laws. Schools take disciplinary action for violations of school and district rules. Behavior which violates school rules may not violate criminal law. So, discipline may be imposed even if a court decides not to impose criminal penalties. The school administration may, however, be *required* to report certain kinds of student conduct to appropriate law enforcement officials if they also constitute a crime.

Student conduct matters, however, are not governed by criminal law or court procedures. Conversely, juvenile or criminal court matters are not controlled by school district rules or procedures. For example, different standards of proof and evidence exist between court and the school district hearings. In the school setting, the “preponderance of evidence” applies. A preponderance of evidence exists where there is a greater weight or more convincing degree of evidence than the evidence offered in opposition to it.

Where and when does the Code of Conduct apply?

This Code applies to students at some very specific times and locations and at other times which are more general in terms that are determined by the impact of the behavior in question upon the school. This Code applies to students:

- During regular school hours;
- Whenever the student is being transported on a school bus or by other transportation arranged by the school district;
- When the student is traveling to and from school by any other means, including walking or personal travel;
- During school events, including off-campus events and activities such as field trips and athletic competitions;
- At other times where a school employee has jurisdiction or authority over students, including summer activities;
- During other activities associated with or supported by the school in any way; and
- On school or district grounds at any time, regardless of whether school is in session.

Additionally, the principal may take disciplinary action when a student's misconduct away from school has a detrimental effect on other students at school or on the orderly educational process of the district, because the violation is directly connected to prior violations at school or threatens to produce further violations or a risk of harm or injury at school.

What specific behaviors does this Code of Conduct prohibit?

The tables which follow in the next section of this Code of Conduct list rules for student conduct (prohibited behaviors). Prohibited behaviors are classified by the following categories in the tables:

1. Aggression and Hostility
2. Alcohol, Tobacco, Medications and Other Drugs
3. Arson and Combustibles
4. Attendance Violations
5. Harassment, Threats, Bullying and Intimidation
6. Academic Dishonesty (Lying, Cheating, Forgery or Plagiarism)
7. Disruptions to the Academic Process
8. Threatening the School Environment
9. Sexual Behaviors
10. Technology Abuses
11. Theft
12. Trespassing
13. Vandalism and Damage
14. Weapons and Dangerous Items

What specific consequences can be imposed for violations of this Code of Conduct?

The tables which follow in the next section of this Code of Conduct list consequences for violations of the Code -- the types of discipline which school district personnel are permitted or – in some situations – are required to impose.

Unless the consequences listed in the table are designated as “mandatory” for a given violation, the school principal may determine the consequences from those listed. Multiple consequences may be selected by the principal. Principals can consider the age and developmental level of student in setting disciplinary consequences.

Where a consequence is stated as “mandatory”, a principal must pursue the implementation of the listed consequence(s), unless the principal requests and obtains a written waiver of the mandatory consequence(s). Waivers may only be approved by the Associate to the Superintendent. In the absence of the Associate to the Superintendent, approvals of waivers must be made by the Associate Superintendent or the Superintendent.

The disciplinary consequences include the following school level and district level actions:

School Level Disciplinary Actions:

Where appropriate or required, school personnel may implement the following disciplinary actions:

- **Activity Restriction** – A student may be restricted from participating in or attending school activities such as dances, performances, athletic contests, team practices, club meetings, events, parties, etc.
- **Bus Probation** – Established conditions with which the student must comply in order to continue riding the school bus.
- **Bus Suspension** – Students can be denied the privilege of riding a school bus for violations of the Student Code of Conduct, even if they are not denied the right to attend school.
- **Conference** – Meetings or contacts between two or more of the following: the student, parent, counselor, principal, and other district staff members.
- **Detention** – Restriction of a student’s activities during, or a requirement to attend, non-academic time, such as before or after school, during recess, or during other free time, including a “Saturday school”.

- **In-Class/School Disciplinary Action** – Consequences, which do not require suspension from school, such as loss of privileges, additional work assignments, temporary removal from class, and/or other classroom or school-based consequences.
- **In-school Suspension** – An alternative to suspension program established at the school to which students are assigned and by which students are removed from the regular education setting.
- **Probationary Contract** – A written document setting out academic and/or behavioral stipulations for the student. Violation of the contract will result in additional, usually more severe, disciplinary action.
- **Reprimand** – The student is reprimanded, verbally or in writing, by a principal or other staff member.
- **Removal by Teacher From Class** – The teacher is responsible for maintaining an appropriate learning environment in the classroom. Arizona law, therefore, permits a teacher to temporarily exclude a student from the teacher's class for serious disruption of the educational process within the teacher's classroom or for exhibiting persistent disobedient behavior. The teacher may also refuse to readmit the student to the classroom under certain circumstances. In the event of such a removal from class, the student will report to a location at school determined by the school principal. School-based procedures which determine whether the student may return to the class are then implemented.
- **Requests for District Level Disciplinary Actions (listed below)**
- **Revocation of Automobile Privileges** – The student is not permitted to drive a vehicle onto school grounds.
- **Short-Term Suspension** – Suspension of a student from school for up to nine (9) school days. During the term of a short-term suspension, the student must remain away from all district schools and activities. If it is necessary for a student to come to a school during a short-term suspension, the student must make prior arrangements with the principal to do so. A short-term suspension imposed by the principal's designee may be appealed to the principal. A short-term suspension, which was imposed or approved by the actual school principal, is not subject to appeal.
- **Student Schedule or Curriculum Adjustment** – Change in class schedule, teacher, courses, instruction, or access to components of curriculum.
- **Time Out** – A student is removed from instruction in the classroom or from other school activities for a period not to exceed three hours. During time out,

the student is reassigned to a supervised area such as the principal's office, alternative or in-school suspension programs, or responsibility rooms.

- **Work Assignments/Community Service** – A school or the District may elect to provide the student with an opportunity to perform supervised activities related to the assistance of District personnel, or to the upkeep and maintenance of school facilities or other public properties, instead of serving or while serving a suspension or expulsion. The student and parent(s) may also request this alternative, however the final decision rests with the principal. Supervision by parents may be required for this alternative.

District Level Disciplinary Actions:

Where appropriate or required, District level personnel may implement the following disciplinary actions:

- **Any of the School Level Disciplinary Actions (listed above)**
- **Long-Term Suspension** – A suspension of a student from school for a term not to exceed the total number of school days in one school year (presently 178 school days). A long-term suspension may carry over from one school year into the next. During the term of a long-term suspension, the student must remain away from all district schools and activities. If it is necessary for a student to come to a school during a long-term suspension, the student must make prior arrangements with the principal to do so. A long term suspension may only be imposed following a hearing held by a district-level hearing officer. A student or parent has a right to appeal the decision of the district hearing officer to the Governing Board in accordance with District policy and regulation. Suspensions remain in effect pending the Board's review of any appeal.
- **Expulsion** – The exclusion of a student from school until specifically permitted to return to school by the Governing Board, usually based upon the student's and the parent's compliance with certain terms and conditions. Expulsion can be permanent as well. During the term of an expulsion, the student must remain away from all district schools and activities. If it is necessary for a student to come to a school during an expulsion, the student must make prior arrangements with the principal *and the hearing officer* to do so. Following a long-term suspension hearing, the hearing officer may recommend that the Governing Board also consider expulsion. In the event of such a recommendation, the Governing Board will determine whether to appoint a new (second) hearing officer to hold an expulsion hearing. In that case, the expulsion hearing officer will make a recommendation to the Governing Board as to whether the student should be expelled following the hearing. **Only the Governing Board can determine whether a student should be expelled;** the Board will decide if expulsion or other discipline should be imposed after considering the recommendations of both of the

hearing officers. A student or parent has a right to dispute or appeal the recommendation of the hearing officer to the Governing Board in accordance with District policy and regulation.

Are educational services provided to suspended and expelled students?

In some circumstances, the District will offer ongoing educational services to students who are suspended or expelled. Whether the District does so depends upon the length of the exclusion from school, the student's status as a disabled student, and the nature of the students offense.

Where students are eligible for and are offered continuing services by the District, the student's active participation in the alternative education services offered may be considered as a factor in reducing the level of discipline normally appropriate for the offense involved. For example, if a student is suspended for possession of illegal drugs and is being considered for expulsion as well, the fact that the student has enrolled in and is actively pursuing his education in the alternative program offered by the District may result in waiver of the requirement under this Code for expulsion or may even serve to reduce the term of the long term suspension.

Are there special considerations for athletes and extracurricular participants?

Students participating in interscholastic activities for their schools do so as representatives of their school community and as role models for other students. Their involvement with drugs and alcohol at any time can therefore negatively reflect upon their community and convey a poor example to their peers. In addition, the use of drugs or alcohol by athletic or activity participants can lead to an increased risk of harm or severe injury to themselves or others during those activities.

The Amphitheater District therefore maintains a zero tolerance “24/7” policy on the use of drugs or alcohol by interscholastic participants. Any interscholastic participant who uses, possesses or transfers alcohol or drugs at any time during their active season of competition will be immediately removed from the activity for the balance of the season. This rule applies 24 hours a day, seven days a week, regardless of a student’s location.

Similarly, other behaviors by student representatives can reflect upon their team, school and community. Students participating in interscholastic activities should be mindful at all times of the important role they play in their school community and how their behavior can negatively impact their fellow teammates, their fellow students, and the school in general. Whether at a team event, a school activity, a community function, or on the internet, student representatives must always observe appropriate decorum, behavior and etiquette when acting in anyway that is connected to the school or team.

How does this Code of Conduct apply to students of different ages and developmental factors?

The rules and procedures outlined in this Student Code of Conduct apply to all District students in middle schools and high schools. The age, maturity and developmental factors of students may be considered in determining the type of disciplinary action to be taken in the event of violations. Generally speaking, the older and more mature a student is and/or the more serious the infraction, the more personal responsibility the student will carry for his or her actions.

District personnel who administer student discipline will follow appropriate disciplinary procedures for disabled students when dealing with students in special education programs, with those receiving Section 504 accommodations, and with those who are pending evaluation.

Special Disciplinary Rules

Weapons and Drugs

In the case of *weapon* or *drug* violations, long-term suspensions, and expulsion hearings are MANDATORY, with limited exceptions.

Possession of weapons is a particularly serious matter. Federal and state law require the school district to expel any student – for no less than one school year -- who brings a firearm to school or to a school activity. The law provides for very limited exceptions to this strict rule, which can only be determined by the Governing Board of the District on a case-by-case basis.

Special Rule for Athletic and Activity Participants

Students participating in interscholastic activities for their schools do so as representatives for their school community and as role models for other students. When those students engage in drug or alcohol related behavior, it can negatively reflect upon their school community and can jeopardize their safety or that of other participants. Such involvement by these student leaders also sets a poor example for their peers.

As a consequence, the Amphitheater District maintains a “24/7” policy on the use of drugs or alcohol by interscholastic activity participants. Any participant who uses, possesses or transfers alcohol or drugs at any time during a season will be immediately removed from the activity for the balance of that season. This rule applies 24 hours a day, seven days a week, regardless of a student’s location.

Other (non-drug or alcohol related) behaviors by student representatives can also reflect upon their team, school and community. Students participating in interscholastic activities should be mindful at all times of the important role they play in their school community and how their behavior can negatively impact their fellow teammates, their fellow students, and the school in general. Whether at a team event, a school activity, a community function, or on the internet, student representatives must always observe appropriate decorum, behavior and etiquette when acting in anyway that is connected to the school or team.

Threatening an Educational Institution

Arizona law prohibits any person, including students, from threatening the safety and security of a public school or school district.

In accordance with Arizona Revised Statutes Section 15-841(H), a student who threatens a school must be expelled for a period of no less than one full year. The

School District Governing Board may only rarely modify this strict expulsion requirement on a case-by-case basis.

A student subject to this expulsion requirement may also be assigned to an alternative educational program if the student participates in mediation, community service, restitution, or other programs in which the student takes responsibility for the results of the threat. The District may require the student's parent(s) to participate in such programs with the student as a condition to the student's reassignment to an alternative educational program.

Behaviors that Must Be Reported to Law Enforcement

Regardless of disciplinary action taken (or not taken) by a school, certain student behaviors must be reported to appropriate law enforcement authorities under the law. In accordance with law, school officials will report the following behaviors to law enforcement authorities:

- Aggravated assault
- Arson
- Bomb threats
- False fire alarms
- Non-accidental injuries to student.
- Assault
- Possession of weapons
- Possession, sale, or distribution of drugs; dangerous items, or alcohol
- Sexual assault/misconduct
- Threatening an educational institution

The District will also report any person's involvement in illegally removing a student from the school or other places where the principal has jurisdiction over the student, such as on school buses, on field trips, at athletic functions, and during school-sponsored events.

Additionally, the principal may report to the law enforcement agencies other potentially disruptive incidents occurring within the regular operation of the school. Such incidents include, but are not limited to, the following:

- Demonstration by students which could create unsafe conditions
- Extortion
- Theft/possession of stolen property
- Trespassing
- Vandalism

The District may also report any person's disruption or interference with any school function.

The foregoing lists are not exclusive and exhaustive. Other conduct MAY be reported to law enforcement officials if deemed necessary by the principal or other administration of the District.

District Policies of Importance Regarding Student Behavior

Policies are adopted by the Amphitheater Governing Board for the safety and welfare of the district's students, staff and community and, in some cases, as required by law.

The following policies and regulations are particularly significant in guiding students and parents as to the conduct and behavior expected while attending school-related activities. Policies may be revised at any time. The most current policies are maintained on, and available through, the District's website.

The information will include, but not be limited to, Governing Board policies, incident reporting, support services (proactive and reactive) and student's rights. The dissemination of this information shall:

Information will be provided to staff members at the beginning of each instructional year and on the first day of employment for new employees.

The Superintendent shall establish procedures designed to protect the health and safety of students who are physically harmed as the result of bullying. These will include, when appropriate, procedures for contacting emergency medical services, law enforcement agencies, or both.

Knowingly submitting a false report under this policy shall subject the student to discipline up to and including suspension or expulsion. Where disciplinary action is necessary pursuant to any part of this policy, relevant District policies shall be followed.

Law enforcement authorities shall be notified any time District officials have a reasonable belief that an incidence of bullying is a violation of the law.

The use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of dress or grooming that, by virtue of its color, arrangement, trademark, symbol, or any other attribute indicates or implies membership or affiliation with such a group is prohibited because of the disruption to educational activities that results from such activities or dress. If the student refuses, the parent/guardian may be notified and asked to make the necessary correction. The principal will take appropriate corrective and disciplinary action.

JICFA HAZING

There shall be no hazing, solicitation to engage in hazing, or aiding and abetting another who is engaged in hazing of any person enrolled, accepted for or promoted to enrollment, or intending to enroll or be promoted to District schools within twelve (12) calendar months. For purposes of this policy a person as specified above shall be considered a "student" until graduation, transfer, promotion or withdrawal from the District school.

"Hazing" means any intentional, knowing or reckless act committed by a student, whether individually or in concert with other persons, against another student, and in which both of the following apply:

- The act was committed in connection with an initiation into, an affiliation with, or the maintenance of membership in any organization that is affiliated with an education institution.
- The act contributes to a substantial risk of potential physical injury, mental harm or degradation, or causes physical injury, mental harm or personal degradation.

"Organization" means an athletic team, association, order, society, corps, cooperative, club, or similar group that is affiliated with an educational institution and whose membership consists primarily of students enrolled at that educational institution.

It is no defense to a violation of this policy if the victim consented or acquiesced to hazing.

In accord with statute, violations of this policy do not include either of the following:

- Customary athletic events, contests or competitions that are sponsored by an educational institution.
- Any activity or conduct that furthers the goals of a legitimate educational curriculum, a legitimate extracurricular program, or a legitimate military training program.

All students, teachers and staff shall take reasonable measures within the scope of their individual authority to prevent violations of this policy.

Students and others may report hazing to any professional staff member.

Professional staff members must report the incident to the school administrator or next higher administrative supervisor, in writing, with such details as may have been provided. A failure by a staff member to timely inform the school administrator or next higher administrative supervisor of a hazing allegation or their observation of an incident of hazing may subject the staff member to disciplinary action in accord with District policies. The staff member shall preserve the confidentiality of those involved, disclosing the incident only to the appropriate school administrator or next higher administrative supervisor or as otherwise required by law. Any instance of reported or observed hazing which includes possible child abuse or violations of statutes known to the staff member shall be treated in accord with statutory requirements and be reported to a law enforcement agency.

To assure that students and staff are aware of its content and intent, a notice of this policy and procedure shall be posted conspicuously in each school building and shall be made a part of the rights and responsibilities section of the student handbook. Forms for submitting complaints are to be available to students and staff in the school offices.

Disposition of all reports/complaints shall be reported to the Superintendent. The Superintendent will determine if the policies of the District have been appropriately implemented and will make such reports and/or referrals to the Board as may be necessary.

All violations of this policy shall be treated in accord with the appropriate procedures and penalties provided for in District policies related to the conduct and discipline of students, staff, and others.

Governing Board Policy Regulation JICFA-R HAZING

A person who reports or complains regarding hazing may report or complain directly to the school administrator or to a professional staff member. The professional staff member receiving the report/complaint shall retrieve sufficient detail from the person to complete the form designated for such purpose. At a minimum the report/complaint shall be put in writing containing the identifying information on the complainant and such specificity of names, places and times as to permit an investigation to be carried out. When a professional staff member

receives the information, the staff member will transmit a report to the school administrator or supervising administrator not later than the next school day following the day the staff member receives the report/complaint.

The report/complaint will be investigated by the school administrator or a supervising administrator. The procedures to be followed are:

- An investigation of the reported incident or activity shall be made within ten (10) school days when school is in session or within fifteen (15) days during which the school offices are open for business when school is not in session. Extension of the time line may only be by necessity as determined by the Superintendent.
- The investigator shall meet with the person who reported/complained at or before the end of the time period and shall discuss the conclusions and actions to be taken as a result of the investigation. Confidentiality of records and student information shall be observed in the process of making such a report.
- The investigator shall prepare a written report of the findings and a copy of the report shall be provided to the Superintendent.

Where disciplinary action is necessary, District policies shall be followed.

Governing Board Policy EEAEC STUDENT CONDUCT ON SCHOOL BUSES

Students are required to conduct themselves in the bus, prior to boarding the bus, and subsequent to leaving the bus in a manner consistent with established standards for classroom behavior.

When a student fails to practice proper conduct, the bus driver will inform the principal of the misconduct, which may then be brought to the attention of the parents.

Students who become serious disciplinary problems related to school transportation may have their riding privileges suspended. In such cases, the parents of the students involved become responsible for seeing that their children get to and from school safely.

Students riding on special-activity buses are under the direct supervision of the bus driver in cooperation with sponsor(s). Students who do not conduct themselves properly will be denied the privilege of riding on special-activity buses.

NOTICE

To facilitate investigation of bus infractions and protect bus occupants, buses may be equipped with hidden cameras which will visually and audibly record events.

- A student shall not throw, shoot, or project any type of object while in a school bus or other school vehicle.
- Animals, insects, or reptiles shall not be transported in a school bus.
- Glass containers shall not be transported in a school bus.
- Elementary school students must have written permission to leave a school bus at a stop other than such students' usual stops.
- Any musical instrument carried by a student shall be under the student's control at all times or properly stored in a vacant seat.
- A student shall make every effort to:
 - Keep the school bus or other vehicle clean.
 - Be courteous to the driver and other students/passengers in the school bus or other vehicle.
 - Practice safe habits in waiting for a school bus at a scheduled stop, and in getting on and off the bus.
 - Never use loud, profane, or obscene language or obscene gestures while in a school bus or other school vehicles.
- When unloading from a school bus and crossing to the left side of a road or street, a student shall always pass in front of the bus.
- The use of tobacco, in any form, is prohibited on a school bus.
- *Riding on a school bus is a privilege, not a right.* A student who refuses to obey the directions of a bus driver promptly, or to obey these regulations, may be denied the privilege of riding to and from school on a school bus.

Consequences for Violations of Conduct Rules for School Bus or Other School District Vehicles

The driver of a school bus or other School District vehicle has the legal responsibility to maintain passenger conduct that does not jeopardize the safety or welfare of the driver and the passengers. Therefore, it may be necessary for the driver to make judgments regarding appropriate consequences for violations of bus conduct rules.

The driver's discretion will be used in establishing the severity of the offense based on the descriptions listed below. Consequences will be administered consistent with the severity of the offense. For example, if the driver believes the behavior of the student was a 4th level (very serious) violation, it is not necessary that the consequences for levels 1 - 3 be imposed before suspension of riding privileges is imposed.

At all levels of severity, the student will be provided with the opportunity to hear the specified charges and to respond to those charges.

Charge levels:

- *1st level violations* are minor in nature, do not involve repeat violations of conduct rules, and do not immediately jeopardize the safety or welfare of other passengers.
 - A verbal warning will be given to the student by the driver, indicating the specific behavior that is inappropriate and requesting that such behavior not be repeated.
- *2nd level violations* are of moderate severity. They may include repetitions of minor violations, constitute a distraction sufficient to distract the attention from driving responsibilities, and/or compromise the safety or welfare of the driver or other passengers.
 - The driver will hold a conference with the student and may change the seat assignment of the student. The driver shall keep a record of 2nd level offenses. The name of the student, the behavior, and action taken should be recorded.
- *3rd level violations* are serious in nature. They include, but are not limited to, repeated violations that have been addressed by the driver at either the first or second levels and disruptions that compromise the safety or welfare of the driver or other passengers.
 - The bus driver will submit a written report to the school principal or designee, who will arrange a conference, either in person or by telephone, with the driver and the person responsible for the student. The driver will recommend a consequence, which may include, but not be limited to, change of bus seat, behavioral contract, or home support and involvement.
 - The final determination of consequence will be made jointly by the principal or designee and the transportation manager.
 - A student may have no more than two (2) 3rd level referrals before a loss of riding privileges will occur.
- *4th level violations* are very serious in nature. They include chronic violations of bus conduct rules, vandalism to the bus or School District vehicle, any violation of the District's weapons, drugs, and alcohol policies, assault, extortion, or arson, and any other offense that the driver deems of sufficient severity as to jeopardize the safety or welfare of the driver or passengers.
 - The bus driver will submit a written report to the school principal or designee, who will arrange a conference, either in person or by telephone, with the driver and the person responsible for the student. The driver will recommend a consequence, which will include a suspension or loss of bus riding privileges.
 - Generally, the first 4th level violation will carry a suspension of up to five days. Additional 4th level violations will carry a penalty of, at least, five days and may result in a loss of riding privileges for the remainder of the school year. However, a first 4th level offense may be of significant seriousness that the driver can recommend a longer or permanent suspension of riding privileges.

Suspension of Student from School Buses or Other District Vehicles

A suspension from the bus may be appealed to the principal, if the suspension has been imposed by a designee. The final decision will be made jointly by the transportation manager and the principal or designee.

When it is necessary to suspend a student from a school bus or other School District vehicle, the person responsible for the student shall be given a *minimum* of twenty-four hours' notice so that the person responsible for the student may arrange alternate transportation for the student.

The principal or designee will inform the following persons of the specific length and inclusive dates of the suspension period, prior to enforcement of the suspension:

- The student involved.
- The person responsible for the student.
- The driver for the suspended student.

The student shall be advised that all concerned parties, as noted above, will be informed of the action taken.

Immediate Removal of Student from School Bus or Other District Vehicle

Notwithstanding the progressive consequences described above, the driver of a school bus shall have the authority to remove a student from the school bus or other School District vehicle prior to a conference with the principal or designee and the person responsible for the student under the following conditions:

- *Middle school and high school students.* If the student's behavior on the bus is such that the student is creating an immediate safety hazard, the driver may put the student off the bus. In such case, the driver must get the student's name and must instruct the student to remain outside the bus at the scene until a school official arrives. The driver must notify the transportation office immediately and must stay at the scene, until instructed differently by the transportation office. If the student refuses to stay at the scene, and leaves the area, the driver must report this immediately to the transportation office and must continue to stay at the scene until instructed differently by the transportation office.
- *Elementary school students.* At no time and under no circumstances shall an elementary school student be put off the bus by a driver. If an uncontrollable situation should arise with a student or students in these grades, the driver must contact the transportation office immediately for instructions. If there is any behavioral situation on a bus that would immediately jeopardize the safety of the driver and/or the passengers on the bus, the driver should stop the bus and remain stopped while awaiting instructions.

Special Education Students - Suspension from School Bus or Other School District Vehicle

Students enrolled in special education programs may be suspended for up to ten consecutive days per offense. For longer periods of time, or for frequent short-term suspensions, a responsibility conference must be convened to determine whether or not the behavior is a manifestation of the student's disability. If a causal relationship is not found, the student may be suspended for more than ten consecutive days. If the behavior is determined to be a manifestation of the student's disability, the student's IEP will be reviewed and modifications will be made if deemed necessary.

Governing Board Policy JICA STUDENT DRESS

Safety standards established for vocational education, physical education, and other lab classes shall be followed. Specific standards for dress and grooming may be established for extracurricular activities by those responsible for supervising such activities.

If a student's dress is in violation of this regulation, the principal or designee will ask the student to make an appropriate correction. If the student refuses, the parent/guardian may be notified and asked to make the necessary correction. The principal or designee will take corrective action in order to ensure compliance with the student dress code.

PUBLIC CONDUCT ON SCHOOL PROPERTY

No person shall engage in conduct that may cause interference with or disruption of an educational institution. Interference with or disruption of an educational institution includes any act that might reasonably lead to the evacuation or closure of any property of the educational institution or the postponement, cancellation or suspension of any class or other school activity. For the purposes of this policy, an actual evacuation, closure, postponement, cancellation or suspension is not required for the act to be considered interference or disruption.

A person commits interference with or disruption of an educational institution by doing any of the following:

- Intentionally, knowingly or recklessly interfering with or disruption of the normal operations of an educational institution by either:

Additional Requirements of the General Public

The definition of *general public* is anyone who does not come under the definition of student, faculty member, staff member, or employee.

- No person shall visit or audit a classroom or other school activity, nor shall any person come upon or remain upon school premises, without approval by the principal or the principal's authorized representative. Governing Board Police Regulation KFA-R SPECTATOR CONDUCT

This regulation provides specific rules for dealing with spectator conduct of nonstudent fans in order to prevent unsportsmanlike conduct of such fans, including verbal abuse toward officials, coaches, and other spectators, as well as any other actions deemed disruptive or unruly.

The principal and a few carefully chosen designees will deal with and enforce satisfactory spectator conduct. These individuals will have the authority to remove or arrange for the removal of such disruptive individuals. Such removal should indicate either verbally or in writing that the person(s) is not to return to campus without assuring the principal, in writing, of a guarantee that such misconduct will not be repeated. Refusal to do so would allow the principal to ban the person(s) from future games or other school events.
