

**Homedale School District  
Transportation and Maintenance**

The cost of the monitoring system for the heating units at the high school is going to cost around \$6000.00. Idaho power has a rebate of \$6000.00 that we will receive.

Over Christmas break the old hot water storage tanks will be removed which is a good thing because the 3 inch main line has started leaking.

We are having a lot of elementary kids falling asleep on the buses, so the drivers are having to watch pretty close when unloading the kids to make sure they are all getting off the bus.
