

President's Report

April 2024

Tech Expansion

Phase 1 – Concrete slab scheduled to begin the week of April 15

Phase 1B – Architect is finalizing the site work plans for the Truck Driving relocation; will be submitting to the City of Eagle Pass for permitting. Architect continues to work on the proposals for the Automotive and HVAC expansion alternatives for the Chittim Campus

Phase 1C – Renovation for Diesel Expansion Uvalde – Architect is working on plans.

Accreditation

Our 10-year SACS~COC reaffirmation compliance report is due in 2025. We have assigned the leadership team and identified who is responsible for each of the compliance standards. Along with our reaffirmation report we need to develop and submit a Quality Enhancement Plan (QEP), this is a specific project (plan) that is institutional in nature designed to improve an aspect of student success. Over the last year we have conducted surveys and focused groups with students, faculty, and the community to solicit input. We have narrowed the topic and expect to make a final recommendation to the board within the next two months.

Other

This month I had visits with students on both the Eagle Pass and Del Rio Campuses. Both events were well attended by students.

Met with the Mexican Consulate in Eagle Pass about a partnership to expand pre-GED instruction for Uvalde residents.
