

NEW POLICY - VOL. 20, NO. 1

PREVENTION OF AND RESPONSE TO BULLYING
AND AGGRESSIVE BEHAVIOR

The Board of Education concurs with the finding of the General Assembly that bullying causes physical, psychological, and emotional harm to students and interferes with students' ability to learn and participate in school activities. Bullying is contrary to State law and the policy of this School District. Bullying will not be tolerated in the District, and students who engage in bullying behavior will be subject to serious discipline up to suspension or expulsion from school. When deemed appropriate by the District administration, restorative measures rather than exclusionary discipline may be taken to address bullying behavior. Further, the Board of Education believes in the early identification of students who are at risk for aggressive behavior so that it may better be prevented.

Definitions

“Bullying,” includes cyber-bullying and is defined as: any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has, or can be reasonably predicted to have, the effect of one or more of the following:

- A. placing the student or students in reasonable fear of harm to the student’s person or property
- B. causing a substantially detrimental effect on the student’s physical or mental health
- C. substantially interfering with the student’s academic performance,
or
- D. substantially interfering with the student’s ability to participate in or benefit from the services, activities, or privileges provided by a school

Bullying, as defined herein, may take various forms, including but not limited to harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

“Cyber-bullying” means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photoelectronic system, or photooptical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. “Cyber-bullying” includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying in this Section. “Cyber-bullying” also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying in this Section.

“Restorative measures” means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that (1) are adapted to the particular needs of the school and community, (2) contribute to maintaining school safety, (3) protect the integrity of a positive and productive learning climate, (4) teach students the personal and interpersonal skills they will need to be successful in school and society, (5) serve to build and restore relationships among students, families, schools, and communities, and (6) reduce the likelihood of future disruption by balancing accountability with an understanding of students’ behavioral health needs in order to keep students in school.

Prohibited Conduct

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in the school district.

No student shall be subjected to bullying:

- A. during any school-sponsored education program or activity;
- B. while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities;
- C. through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
- D. through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item **(D)** applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

While the Compliance Officer investigates the allegation, the Principal shall suspend his/her Policy 5517.01 investigation to await the Compliance Officer’s written report. The Compliance Officer shall keep the Principal informed of the status of the Policy 5517.01 investigation and provide him/her with a copy of the resulting written report.

The District shall maintain the confidentiality of the report and any related student records as required by law.
